## **European Union Flag – Schedule ‘B’**

### **Specifications**

- 1a. The European flag and emblem is in the form of a blue rectangular flag of which the fly is one and a half times the length of the hoist. Twelve gold stars situated at equal intervals form an undefined circle, of which the centre is the point of intersection of the diagonals of the rectangle. The radius of the circle is equal to one third the height of the hoist. Each of the stars has five points, which are situated on the circumference of an undefined circle of which the radius is equal to 1/18 of the height of the hoist. All stars are upright - that is to say, with one point vertical, i.e. (pointing upwards), and two points in a straight line at right angles to the mast.
  - b. The emblem shall be in the following colours:  
  
Pantone reflex blue for the surface of the rectangle;  
Pantone yellow for the stars.
  - c. The circle is arranged so that the stars are in an upright position and appear in the position of the hours on the face of a clock. Their number is invariable.
  - d. A graphic pertaining to the European flag/emblem is attached to this document.
2. Flags shall be manufactured from bunting material of good quality texture being 100% woven polyester and weighing minimum 150 grms per square metre. Tenderers must ensure that all selvages are securely hemmed.
  3. The flags are to be supplied complete with brass swivels attachments and head rope.
