ACCESSIBILITY MEASURES REGULATIONS IN PUBLIC CONTRACTS

Directive (EU) 2019/882 on the ‘*Accessibility Requirements for Products and Services*’ was adopted in June 2019. It was locally transposed through the ‘*Accessibility Measures (European Accessibility Act) Regulations*’, Subsidiary Legislation 627.03¹, which came into force on 28th June 2025², allowing also for a Transitional Period for certain obligations in relation to specific Products and Services.

The Department of Contracts and the Ministry for Inclusion and the Voluntary Sector encourage Contracting Authorities³/Entities⁴, specifically officers responsible for Public Procurement as well as Economic Operators to read and familiarise themselves with the Accessibility Measures Regulations S.L. 627.03 which is being enclosed at Annex 1. However, it is recommended that the latest version is always reviewed from the Ministry for Justice’s website: <https://legislation.mt/Legislation>⁵.

At Annex II, the Department of Contracts is providing an ‘Index’ (including Annexes) of the Accessibility Measures Regulations S.L. 627.03. In addition, Annex III comprises ‘Additional Information’ on the Scope, Applicability and the Implementation Timeframes of certain Products/Services within the context of S.L. 627.03 as well as details on the Obligations of Economic Operators and potential Reporting by Contracting Authorities/Entities.

¹ Article 31(1) of Directive 2019/882 states that ‘Member States shall adopt and publish, by 28 June 2022, the laws, regulations and administrative provisions necessary to comply with this Directive’. On 29 July 2022, Directive (EU) 2019/882 was transposed into local legislation through the publication of Legal Notice 214 of 2022.

² Later Deadlines are applicable for certain Specific Products/Services. The maximum extensions were adopted when transposing Directive 2019/882 into Maltese Legislation.

³ Contracting Authorities in S.L. 601.03, S.L. 601.05 and in S.L. 601.12 is defined as the ‘State, regional or local authorities, bodies governed by public law or associations formed by one or more such authorities or one or more such bodies governed by public law’. Contracting Authorities in S.L. 601.09 is defined as per S.L. 601.03 with the additional inclusion of ... ‘other than those authorities, bodies or associations which pursue one of the activities referred to in Schedule 4 and award a concession for the pursuit of one of those activities’. Contracting Authority in S.L. 601.08 is defined as ‘one of the government entities specified in the Schedule’ ie Central Procurement Supplies Unit and the Civil Protection Department.

⁴ Contracting Entities in S.L. 601.05 are entities which: (a) are contracting authorities or public undertakings and which pursue one of the activities referred to in regulations 8 to 14; (b) when they are not contracting authorities or public undertakings, have as one of their activities any of the activities referred to in regulations 7 to 13, or any combination thereof and operate on the basis of special or exclusive rights granted by a competent authority. Schedule 4 of S.L. 601.09 also makes reference to the activities exercised by Contracting Entities.

⁵ <https://legislation.mt/eli/sl/627.3/eng>

At Annex IV, one may review the Explanatory Notes (on the Accessibility Measures Regulations S.L. 627.03), published by the Ministry for Inclusion and the Voluntary Sector⁶ (MIV). Furthermore, to ascertain that all Stakeholders (including Contracting Authorities/Entities and Economic Operators) understand and implement correctly the Accessibility Measures (European Accessibility Act) Regulations S.L. 627.03, the said Ministry shall in due course be publishing a set of User Guidelines which may be accessed from MIV's website: <https://inclusion.gov.mt/european-accessibility-act/>. These User Guidelines will outline the Key Obligations for ensuring that Products and Services, are accessible to Persons with Disabilities.

Applicability of the Accessibility Measures Regulations in Public Contracts

Part X of the Accessibility Measures Regulations relates to instances in which other legislation (namely Procurement/Concession Regulations), also contain Accessibility Requirements, further to the requirements stipulated in S.L. 627.03⁷.

The Accessibility Measures Regulations S.L. 627.03 apply⁸ to any type of Procurement Award Procedure and Concession Award Procedure covered by the following legislation, whereby the Products and Services form part of the Scope⁹ of S.L. 627.03:

- Public Procurement Regulations S.L. 601.03
- Public Procurement of Entities operating in the Water, Energy, Transport and Postal Services Sectors Regulations S.L. 601.05
- Emergency Procurement Regulations S.L. 601.08
- Concession Contract Regulations S.L. 601.09

Accessibility Requirements

Regulation 24 of S.L. 627.03 states that: *‘(1) As regards the products and services referred to in regulation 3¹⁰ of these regulations, the accessibility requirements set out in Annex I to these regulations shall constitute mandatory accessibility requirements within the meaning of the Public Procurement Regulations, the Public Procurement of Entities*

⁶ The Explanatory Note was published on the Government Gazette of 27th June 2025:

<https://www.gov.mt/en/Government/DOI/Government%20Gazette/Government%20Notices/Documents/MIV%20Explanatory%20notes%20Gaz%2027.6.pdf>.

⁷ Recital 90 of Directive (EU) 2019/882 states that ‘The use of those accessibility requirements to fulfil the relevant obligations set out in Union acts other than this Directive would facilitate the implementation of accessibility and contribute to the legal certainty and to the approximation of accessibility requirements across the Union’.

⁸ Recital 92 of Directive (EU) 2019/882 states that ‘This Directive should only apply to procurement [and concession] procedures for which the call for competition has been sent or, in cases where a call for competition is not foreseen, where the contracting authority or contracting entity has commenced the procurement procedure after the date of application of this Directive’.

⁹ For products and services not falling under the scope of S.L. 627.03, the accessibility requirements are not binding.

¹⁰ Without prejudice to Regulation 1(3) of the Accessibility Measures Regulations S.L. 627.03, Regulation 3 of S.L. 627.03 provides a list of products and services that when placed on the market after 28 June 2025, shall adhere to the Accessibility Requirements as listed in Annex I.

operating in the Water, Energy, Transport and Postal Services Sectors Regulations, the Emergency Procurement Regulations and the Concession Contract Regulations.

(2) Any product or service, the features, elements or functions of which comply with the accessibility requirements set out in Annex I to these regulations in accordance with Section VI thereof shall be presumed to fulfil the relevant obligations set out in legislation other than these regulations, as regards accessibility, for those features, elements or functions, unless otherwise provided in those other acts’.

Accordingly, if a Procurement/Concession Call is ensued in line with S.L. 601.03, S.L. 601.05, S.L. 601.08, S.L. 601.09 or S.L.601.12¹¹ specifically whereby it includes the provision of Products and/or Services referred to in Regulation 3 of the S.L. 627.03, the Accessibility Requirements set out in Annex I of S.L. 627.03 shall form part of the Procurement/Concession Procedures, as applicable. Thus, reference shall be made within the Procurement/Concession Document.

For ease of reference and perusal, at Annex V of this Circular, the Department of Contracts is providing a copy of the Accessibility Requirements for Products and Services, specifically Section VI of Annex I of S.L. 627.03.

EU Harmonised Standards and Technical Specifications

The Accessibility Measures Regulations S.L. 627.03, specifically Regulation 25 specifies that: *‘Conformity with harmonised standards¹² and technical specifications¹³ or parts thereof which are adopted in accordance with regulation 15¹⁴, shall create a presumption of compliance with regulation 24 in so far as those standards and technical specifications or parts thereof meet the accessibility requirements of these regulations’*. Additional Information may be reviewed from Part VI of S.L. 627.03: ‘Harmonised Standards and Technical Specifications of Products and Services’.

¹¹ Procurement of Property S.L. 601.12.

¹² Harmonised Standard is defined in S.L. 627.03 as having the ‘same meaning assigned to it in point 1(c) of article 2 of Regulation (EU) No 1025/2012 of the European Parliament and of the Council of 25 October 2012 on European standardisation, amending Council Directives 89/686/EEC and 93/15/EEC and Directives 94/9/EC, 94/25/EC, 95/16/EC, 97/23/EC, 98/34/EC, 2004/22/EC, 2007/23/EC, 2009/23/EC and 2009/105/EC of the European Parliament and of the Council and repealing Council Decision 87/95/EEC and Decision No 1673/2006/EC of the European Parliament and of the Council’.

¹³ Technical Specification is defined in S.L. 627.03 as having the ‘same meaning assigned to it in point 4 of article 2 of Regulation (EU) No 1025/2012 of the European Parliament and of the Council of 25 October 2012 on European standardisation, amending Council Directives 89/686/EEC and 93/15/EEC and Directives 94/9/EC, 94/25/EC, 95/16/EC, 97/23/EC, 98/34/EC, 2004/22/EC, 2007/23/EC, 2009/23/EC and 2009/105/EC of the European Parliament and of the Council and repealing Council Decision 87/95/EEC and Decision No 1673/2006/EC of the European Parliament and of the Council that provides a means to comply with the accessibility requirements applicable to a product or service’.

¹⁴ Regulation 15 of S.L. 627.03 states that ‘(1) Products and services which are in conformity with harmonised standards or parts thereof the references of which have been published in the Official Journal of the European Union, shall be presumed to be in conformity with the accessibility requirements of these regulations in so far as those standards or parts thereof cover those requirements.(2) Products and services which are in conformity with the technical specifications or parts thereof shall be presumed to be in conformity with the accessibility requirements of these regulations in so far as those technical specifications or parts thereof cover those requirements’.

Further to the above, Contracting Authorities/Entities are reminded that in line with Regulations 53(4) and 53(5) of S.L. 601.03, Regulations 76(4) and 76(5) of S.L. 601.05, and Regulation 70(2) of S.L. 601.09, when drafting a Procurement/Concession Call, the Technical Specifications¹⁵ shall be drawn up to take into account Accessibility Criteria for Persons with Disabilities or Design for all Users.

In addition, where mandatory accessibility requirements are adopted by a Legal Act of the European Union, the said Technical Specifications shall be defined by reference thereto¹⁶.

It is important to highlight that S.L. 601.03, S.L. 601.05 and S.L. 601.09 also refer to the requirement to ensure Accessibility for Disabled Persons and Design for all Users in other parts of the regulations, such as, but not limited to:

- Principles for Awarding Contracts
- Requirements of Contracting Authorities/Entities
- Quality Assurance Standards
- Award Criteria

Moreover, Contracting Authorities/Entities shall take note that Conformity of Products and Services with any EU Harmonised Standards and/or Technical Specifications (or parts thereof) which were or would be adopted in the future at EU level, shall create a Presumption of Compliance (in line with Regulation 15) in conformity with Regulation 24 of S.L. 627.03. Nonetheless, such Standards/Specifications (or parts thereof) would have to be in line with the requirements of Section VI of Annex I of S.L. 627.03.

Annex V of this Circular includes a copy of the Presumption of Conformity provision as well as Definitions of Harmonised Standard and Technical Specification.

Enforcement and Penalties

Regulation 26 and Regulation 27 of S.L. 627.03 relate to 'Enforcement' Procedures and 'Penalties' in the form of Administrative Fines, the scope being effective compliance and necessary action in terms of the Equal Opportunities (Persons with Disability) Act CAP 413.

¹⁵ Article 24(1) of Directive (EU) 2019/882 states that 'As regards the products and services referred to in Article 2 of this Directive, the accessibility requirements set out in Annex I thereto shall constitute mandatory accessibility requirements within the meaning of Article 42(1) of Directive 2014/24/EU and of Article 60(1) of Directive 2014/25/EU'. Article 42(1) of Directive 2014/24/EU and Article 60(1) of Directive 2014/24/EU relate to Technical Specifications. Regulation 2 of S.L. 601.03 provides a definition for Technical Specifications.

¹⁶ Recital 90 of Directive (EU) 2019/882 states that 'Directives 2014/24/EU (22) and 2014/25/EU (23) of the European Parliament and of the Council on public procurement, defining procedures for the procurement of public contracts and design contests for certain supplies (products), services and works, establish that, for all procurement which is intended for use by natural persons, whether general public or staff of the contracting authority or entity, the technical specifications are, except in duly justified cases, to be drawn up so as to take into account accessibility criteria for persons with disabilities or design for all users. Furthermore, those Directives require that, where mandatory accessibility requirements are adopted by a legal act of the Union, technical specifications are, as far as accessibility for persons with disabilities or design for all users are concerned, to be established by reference thereto'.

Penalties shall be accompanied by effective remedial action in case of non-compliance of Economic Operators.

However, in line with Regulation 26(3) and Regulation 27(3) of S.L. 627.03, such provisions *‘shall not apply in respect of procurement procedures which are subject to the Public Procurement Regulations, the Public Procurement of Entities operating in the Water, Energy, Transport and Postal Services Sectors Regulations, the Emergency Procurement Regulations or the Concession Contract Regulations, in which respect other applicable legislation as in force from time to time shall apply’*.

Accordingly, ‘Enforcement’ and ‘Penalties’ in respect of said procedures (as well as other Procurement Legislation, as applicable) shall be regulated by the relevant Sectoral Procurement Domestic Legislation, as in force from time to time.

Contact

Contracting Authorities/Entities may submit any queries in relation to the generic procurement content of this Circular to the Department of Contracts’ Customer Care Service on info.contracts@gov.mt or by calling on +356 2378 1001.

However, regarding specific queries vis-à-vis Directive (EU) 2019/882 and the Accessibility Measures (European Accessibility Act) Regulations S.L. 627.03, as well as any other technical difficulties, Contracting Authorities/Entities are to contact the Market Surveillance Authority, namely the Commission for Rights of Persons with Disability (CRPD) on EAA@crpd.org.mt or by calling on +356 2226 7600. On the other hand, persons requiring an alternative communication channel for accessibility purposes (such as Deaf/Hard of Hearing/Nonspeaking people) may send an SMS to CRPD on +356 7978 8555.

Adrian Dalli
Director General (Contracts)

SUBSIDIARY LEGISLATION 627.03**ACCESSIBILITY MEASURES (EUROPEAN
ACCESSIBILITY ACT) REGULATIONS**

*

*LEGAL NOTICE 214 of 2022.***PART I – GENERAL PROVISIONS**

1. (1) The title of these regulations is the Accessibility Measures (European Accessibility Act) Regulations. Citation, scope and commencement.

(2) The scope of these regulations is to transpose Directive (EU) 2019/882 of the European Parliament and of the Council of 17 April 2019 on the accessibility requirements for products and services.

(3) These regulations shall come into force on 28 June 2025:

Provided, however, that the obligations set out in regulation 4(8) shall come into force on 28 June 2027:

Provided further that, without prejudice to regulation 2 of these regulations:

(i) up until 28 June 2030, service providers may continue to provide their services using products which were lawfully used by them to provide similar services before that date;

(ii) service contracts agreed before 28 June 2025 may continue without alteration until they expire, but no longer than five (5) years from that date:

Provided also that self-service terminals lawfully used by service providers for the provision of services before 28 June 2025 may continue to be used in the provision of similar services until the end of their economically useful life, but no longer than twenty (20) years after their entry into use.

2. For the purposes of these regulations:– Interpretation.

"Act" means the United Nations Convention on the Rights of Persons with Disabilities Act; Cap. 627.

"air passenger transport services" means commercial passenger air services, as defined in point (l) of article 2 of Regulation (EC) No 1107/2006 of the European Parliament and of the Council of 5 July 2006 concerning the rights of disabled persons and persons with

*Not yet in force.

reduced mobility when travelling by air, on departure from, on transit through, or on arrival at an airport, when the airport is situated in the territory of a Member State, including flights departing from an airport situated in a third country to an airport situated in the territory of a Member State where the services are operated by Union air carriers;

"assistive technology" means any item, piece of equipment, service or product system including software, that is used to increase, maintain, substitute or improve functional capabilities of persons with disabilities or for alleviation and compensation of impairments, activity limitations or participation restrictions;

Cap. 350.

"audiovisual media services" means any audiovisual media service as defined in article 16G of the Broadcasting Act;

"authorised representative" means any natural or legal person established within the Union who has received a written mandate from a manufacturer to act on its behalf in relation to specified tasks;

"bus passenger transport services" means services covered by articles 2(1) and (2) of Regulation (EU) No 181/2011 of the European Parliament and of the Council of 16 February 2011 concerning the rights of passengers in bus and coach transport and amending Regulation (EC) No 2006/2004;

"CE marking" shall have the same meaning assigned to it in point 20 of article 2 of Regulation (EC) No 765/2008 of the European Parliament and of the Council of 9 July 2008 setting out the requirements for accreditation and repealing Regulation (EEC) No 339/93;

"Commission" means the European Commission;

"competent national authority" means a market surveillance authority that is not the market surveillance authority as defined in this regulation, unless the context indicates otherwise;

"consumer" means any natural person who purchases the relevant product or is a recipient of the relevant service for purposes which are outside his trade, business, craft or profession;

"consumer banking services" means the provision to consumers of the following banking and financial services:

S.L. 378.10.

S.L. 378.12.

(a) credit agreements covered by the Credit Agreements for Consumers Relating to Residential Immovable Property Regulations or the Consumer Credit Regulations;

Cap. 345.

(b) services as defined in points 1, 2, 4 and 5 in Section A and points 1, 2, 4 and 5 in Section B of Annex I to MiFID, as defined in article 2 of the Financial Markets Act;

(c) payment services as defined in article 2 of the Banking Act; Cap. 371.

(d) services linked to the payment account as defined in regulation 2 of the Credit Institutions and Financial Institutions (Payment Accounts) Regulations; and S.L. 371.18.

(e) electronic money as defined in article 2 of the Financial Institutions Act; Cap. 376.

"consumer general purpose computer hardware system" means the combination of hardware which forms a complete computer, characterised by its multi-purpose nature, its ability to perform, with the appropriate software, most common computing tasks requested by consumers and intended to be operated by consumers, including personal computers, in particular desktops, notebooks, smartphones and tablets;

"consumer terminal equipment with interactive computing capability, used for accessing audiovisual media services" means any equipment the main purpose of which is to provide access to audiovisual media services;

"Directive" means Directive (EU) 2019/882 of the European Parliament and of the Council of 17 April 2019 on the accessibility requirements for products and services ("European Accessibility Act");

"distributor" means any natural or legal person in the supply chain, other than the manufacturer or the importer, who makes a product available on the market;

"e-book and dedicated software" means a service, consisting of the provision of digital files that convey an electronic version of a book, that can be accessed, navigated, read and used and the software including mobile device-based services including mobile applications dedicated to the accessing, navigation, reading and use of those digital files, and it excludes software covered under the definition of "e-reader";

"e-commerce services" means services provided at a distance, through websites and mobile device-based services by electronic means and at the individual request of a consumer with a view to concluding a consumer contract;

"e-reader" means dedicated equipment, including both hardware and software, used to access, navigate, read and use e-book files;

"economic operator" means the manufacturer, the authorised representative, the importer, the distributor or the service provider;

- Cap. 399. "electronic communications service" shall have the same meaning assigned to it in article 2 of the Electronic Communications (Regulation) Act;
- "electronic ticketing services" means any system in which passenger transport tickets are purchased, including online, using a device with interactive computing capability, and delivered to the purchaser in electronic form, to enable them to be printed in paper form or displayed using a mobile device with interactive computing capability when travelling.
- "electronic tickets" means any system in which an entitlement to travel, in the form of single or multiple travel tickets, travel subscriptions or travel credit, is stored electronically on a physical transport pass or other device, instead of being printed on a paper ticket;
- Cap. 399. "emergency communication" shall have the same meaning assigned to it in article 2 of the Electronic Communications (Regulation) Act;
- Cap. 399. "emergency service" shall have the same meaning assigned to it in article 2 of the Electronic Communications (Regulation) Act;
- "EU declaration of conformity" means a declaration of conformity as defined in article 5 of Decision No 768/2008/EC of the European Parliament and of the Council of 9 July 2008 on a common framework for the marketing of products, and repealing Council Decision 93/465/EEC;
- "harmonised standard" shall have the same meaning assigned to it in point 1(c) of article 2 of Regulation (EU) No 1025/2012 of the European Parliament and of the Council of 25 October 2012 on European standardisation, amending Council Directives 89/686/EEC and 93/15/EEC and Directives 94/9/EC, 94/25/EC, 95/16/EC, 97/23/EC, 98/34/EC, 2004/22/EC, 2007/23/EC, 2009/23/EC and 2009/105/EC of the European Parliament and of the Council and repealing Council Decision 87/95/EEC and Decision No 1673/2006/EC of the European Parliament and of the Council;
- "importer" means any natural or legal person established within the Union who places a product from a third country on the Union market;
- "interactive computing capability" means functionality supporting human-device interaction allowing for processing and transmission of data, voice or video or any combination thereof;
- "making available on the market" means any supply of a product for distribution, consumption or use on the Union market in the course of a commercial activity, whether in return for payment or free of

charge;

"manufacturer" means any natural or legal person who manufactures a product or has a product designed or manufactured, and markets that product under its name or trademark;

"market surveillance authority" means the Commission for the Rights of Persons with Disability, in its role as market surveillance authority in respect of the Directive, as designated by article 22(1)(v) of the Equal Opportunities (Persons with Disability) Act;

Cap. 413.

"Member State" or "Member States" mean a member state or member states of the European Union as defined in article 2 of the European Union Act;

Cap. 460.

"microenterprise" means an enterprise which employs fewer than ten (10) persons and which has an annual turnover not exceeding EUR 2 million or an annual balance sheet total not exceeding EUR 2 million;

"Minister" means the Minister as defined in the Act;

"most appropriate PSAP" shall have the same meaning assigned to it in regulation 2 of the Electronic Communications Networks and Services (General) Regulations;

S.L. 399.48.

"operating system" means software, which, *inter alia*, handles the interface to peripheral hardware, schedules tasks, allocates storage, and presents a default interface to the user when no application program is running including a graphical user interface, regardless of whether such software is an integral part of consumer general purpose computer hardware, or constitutes free-standing software intended to be run on consumer general purpose computer hardware, but excluding an operating system loader, basic input/output system, or other firmware required at boot time or when installing the operating system;

"payment terminal" means a device the main purpose of which is to allow payments to be made by using payment instruments as defined in article 2 of the Financial Institutions Act at a physical point of sale but not in a virtual environment;

Cap. 376.

"persons with disabilities" means persons having a disability as defined in article 2 of the Act;

"placing on the market" means the first making available of a product on the Union market;

"product" means a substance, preparation, or good produced through a manufacturing process, other than food, feed, living plants and animals, products of human origin and products of plants and

animals relating directly to their future reproduction;

Cap. 399. "public safety answering point" or "PSAP" shall have the same meaning assigned to it in article 2 of the Electronic Communications (Regulation) Act;

"rail passenger transport services" means all rail passenger services as referred to in article 2(1) of Regulation (EC) No 1371/2007 of the European Parliament and of the Council of 23 October 2007 on rail passengers' rights and obligations, with the exception of services referred to in article 2(2) thereof;

"real time text" means a form of text conversation in point to point situations or in multipoint conferencing where the text being entered is sent in such a way that the communication is perceived by the user as being continuous on a character-by-character basis;

"regional transport services" shall have the same meaning assigned to it in point 7 of article 3 of Directive 2012/34/EU of the European Parliament and of the Council of 21 November 2012 establishing a single European railway area (recast), but for the purposes of these regulations, it includes only the following modes of transport: rail, bus and coach, metro, tram and trolley bus;

Cap. 500. "service" shall have the same meaning assigned to it in article 2 of the Services (Internal Market) Act;

"service provider" means any natural or legal person who provides a service on the Union market or makes offers to provide such a service to consumers in the Union;

Cap. 350. "services providing access to audiovisual media services" means services transmitted by electronic communications networks which are used to identify, select, receive information on, and view audiovisual media services and any provided features, such as subtitles for the deaf and hard of hearing, audio description, spoken subtitles and sign language interpretation, which result from the implementation of measures to make services accessible as referred to in article 16JB of the Broadcasting Act and includes electronic programme guides (EPGs);

"small and medium-sized enterprises" or "SMEs" means enterprises which employ fewer than two hundred and fifty (250) persons and which have an annual turnover not exceeding EUR 50 million, or an annual balance sheet total not exceeding EUR 43 million, but excludes microenterprises;

"technical specification" shall have the same meaning assigned to it in point 4 of article 2 of Regulation (EU) No 1025/2012 of the European Parliament and of the Council of 25 October 2012 on European standardisation, amending Council Directives 89/686/EEC

and 93/15/EEC and Directives 94/9/EC, 94/25/EC, 95/16/EC, 97/23/EC, 98/34/EC, 2004/22/EC, 2007/23/EC, 2009/23/EC and 2009/105/EC of the European Parliament and of the Council and repealing Council Decision 87/95/EEC and Decision No 1673/2006/EC of the European Parliament and of the Council that provides a means to comply with the accessibility requirements applicable to a product or service;

"total conversation service" shall have the same meaning assigned to it in regulation 2 of the Electronic Communications Networks and Services (General) Regulations; S.L. 399.48.

"Union" means the European Union as defined in article 2 of the European Union Act; Cap. 460.

"urban and suburban transport services" shall have the same meaning assigned to it in point 6 of article 3 of Directive 2012/34/EU of the European Parliament and of the Council of 21 November 2012 establishing a single European railway area (recast), but for the purposes of these regulations, it includes only the following modes of transport: rail, bus and coach, metro, tram and trolley bus;

"waterborne passenger transport services" shall have the same meaning assigned to it by Article 2(1) of Regulation (EU) No 1177/2010 of the European Parliament and of the Council of 24 November 2010 concerning the rights of passengers when travelling by sea and inland waterway and amending Regulation (EC) No 2006/2004, with the exception of services referred to in Article 2(2) of that Regulation;

"withdrawal" means any measure aimed at preventing a product in the supply chain from being made available on the market.

3. (1) These regulations apply to the following products placed on the market after 28 June 2025: Applicability.

(a) consumer general purpose computer hardware systems and operating systems for those hardware systems;

(b) the following self-service terminals:

(i) payment terminals;

(ii) the following self-service terminals dedicated to the provision of services covered by these regulations:

- automated teller machines;

- ticketing machines;

- check-in machines;

- interactive self-service terminals providing information, excluding terminals installed as integrated parts of vehicles, aircrafts, ships or rolling stock;

(c) consumer terminal equipment with interactive computing capability, used for electronic communications services;

(d) consumer terminal equipment with interactive computing capability, used for accessing audiovisual media services; and

(e) e-readers.

(2) Without prejudice to regulation 1(3), these regulations apply to the following services provided to consumers after 28 June 2025:

(a) electronic communications services with the exception of transmission services used for the provision of machine-to-machine services;

(b) services providing access to audiovisual media services;

(c) the following elements of air, bus, rail and waterborne passenger transport services, except for urban, suburban and regional transport services for which only the elements under sub-paragraph (v) apply:

(i) websites;

(ii) mobile device-based services including mobile applications;

(iii) electronic tickets and electronic ticketing services;

(iv) delivery of transport service information, including real-time travel information; this shall, with regard to information screens, be limited to interactive screens located within the territory of the Union; and

(v) interactive self-service terminals located within the territory of the Union, except those installed as integrated parts of vehicles, aircrafts, ships and rolling stock used in the provision of any part of such passenger transport services;

(d) consumer banking services;

- (e) e-books and dedicated software; and
 - (f) e-commerce services.
- (3) These regulations apply to answering emergency communications to the single European emergency number "112".
- (4) These regulations do not apply to the following content of websites and mobile applications:
- (a) pre-recorded time-based media published before 28 June 2025;
 - (b) office file formats published before 28 June 2025;
 - (c) online maps and mapping services, if essential information is provided in an accessible digital manner for maps intended for navigational use;
 - (d) third-party content that is neither funded, developed by, or under the control of, the economic operator concerned;
 - (e) content of websites and mobile applications qualifying as archives, meaning that they only contain content that is not updated or edited after 28 June 2025.
- (5) These regulations shall be without prejudice to the Permitted Use of Certain Works and Other Subject Matter Protected by Copyright and Related Rights for the Benefit of Persons who are Blind, Visually Impaired or Otherwise Print-Disabled Order and Regulation (EU) 2017/1563.

S.L. 460.36.

PART II – ACCESSIBILITY REQUIREMENTS AND FREE MOVEMENT

4. (1) In accordance with sub-regulations (2), (3) and (5) of this regulation and subject to regulation 14, economic operators shall only place on the market products and only provide services that comply with the accessibility requirements set out in Annex I to these regulations.
- (2) All products:
- (a) shall comply with the accessibility requirements set out in Section I of Annex I to these regulations;
 - (b) except for self-service terminals, shall comply with the accessibility requirements set out in Section II of Annex I to these regulations.
- (3) Without prejudice to sub-regulation (5), all services:

Accessibility
Requirements.

(a) except for urban and suburban transport services and regional transport services, shall comply with the accessibility requirements set out in Section III of Annex I to these regulations;

(b) shall comply with the accessibility requirements set out in Section IV of Annex I to these regulations.

(4) The built environment used by clients of services covered by these regulations shall comply with the accessibility requirements set out in Annex III to these regulations, in order to maximise their use by persons with disabilities:

Provided that such obligation shall be without prejudice to similar obligations contained in any other legislation.

(5) Microenterprises providing services shall be exempt from complying with the accessibility requirements referred to in sub-regulation (3) and any obligations relating to the compliance with those requirements.

(6) Guidelines and tools to microenterprises to facilitate the application of these Regulations shall be developed by the market surveillance authority, in consultation with relevant stakeholders.

(7) The market surveillance authority may inform economic operators of the indicative examples, contained in Annex II to these regulations, of possible solutions that contribute to meeting the accessibility requirements in Annex I to these regulations.

(8) The answering of emergency communications to the single European emergency number "112" by the most appropriate PSAP, shall comply with the specific accessibility requirements set out in Section V of Annex I to these regulations in the manner best suited to the national organisation of emergency systems.

Existing Union law
in the field of
passenger
transport.

5. Services complying with the requirements on the provision of accessible information and of information on accessibility laid down in Regulations (EC) No 261/2004, (EC) No 1107/2006, (EC) No 1371/2007, (EU) No 1177/2010, and (EU) No 181/2011 and relevant acts adopted on the basis of Directive 2008/57/EC shall be deemed to comply with the corresponding requirements of these regulations. Where these regulations provide for requirements additional to those provided in those Regulations and those acts, the additional requirements shall apply in full:

Provided that such obligation shall be without prejudice to similar obligations contained in any other legislation.

Free movement.

6. The making available on the market of products or the provision of services that comply with these regulations shall not be

impeded for reasons related to accessibility requirements.

**PART III – OBLIGATIONS OF ECONOMIC OPERATORS
DEALING WITH PRODUCTS**

7. (1) When placing their products on the market, manufacturers shall ensure that the products have been designed and manufactured in accordance with the applicable accessibility requirements of these regulations.

Obligations of
manufacturers.

(2) Manufacturers shall:

(a) draw up the technical documentation in accordance with Annex IV to these regulations and carry out the conformity assessment procedure set out in that Annex or have it carried out;

(b) where compliance of a product with the applicable accessibility requirements has been demonstrated by that procedure, draw up an EU declaration of conformity and affix the CE marking.

(3) Manufacturers shall keep the technical documentation and the EU declaration of conformity for five (5) years after the product has been placed on the market.

(4) Manufacturers shall ensure that procedures are in place for series production to remain in conformity with these regulations. Changes in product design or characteristics and changes in the harmonised standards, or in technical specifications, by reference to which conformity of a product is declared shall be adequately taken into account.

(5) Manufacturers shall ensure that their products bear a type, batch or serial number or other element allowing their identification, or, where the size or nature of the product does not allow it, that the required information is provided on the packaging or in a document accompanying the product.

(6) Manufacturers shall indicate their name, registered trade name or registered trade mark and the address at which they can be contacted on the product or, where that is not possible, on its packaging or in a document accompanying the product. The address must indicate a single point at which the manufacturer can be contacted. The contact details shall be in a language easily understood by end-users and competent national authorities in different Member States.

(7) Manufacturers shall ensure that the product is accompanied by instructions and safety information in a language which can be easily understood by consumers and other end-users, as

determined by the market surveillance authority from time to time. Such instructions and information, as well as any labelling, shall be clear, understandable and intelligible.

(8) Manufacturers who consider or have reason to believe that a product which they have placed on the market is not in conformity with these regulations shall immediately take the corrective measures necessary to bring that product into conformity, or, if appropriate, to withdraw it. Furthermore, where the product does not comply with the accessibility requirements of these regulations, manufacturers shall immediately inform the competent national authorities of the Member States in which they made the product available to that effect, giving details, in particular, of the non-compliance and of any corrective measures taken. In such cases, manufacturers shall keep a register of products which do not comply with applicable accessibility requirements and of the related complaints.

(9) Manufacturers shall, further to a reasoned request from a competent national authority, provide it with all the information and documentation necessary to demonstrate the conformity of the product, in a language which can be easily understood by that authority. They shall cooperate with that authority, at its request, on any action taken to eliminate the non-compliance with the applicable accessibility requirements of products which they have placed on the market, in particular bringing the products into compliance with the applicable accessibility requirements.

Authorised
representatives.

8. (1) A manufacturer may, by a written mandate, appoint an authorised representative:

Provided that the obligations laid down in regulation 7(1) and the drawing up of technical documentation shall not form part of the authorised representative's mandate.

(2) An authorised representative shall perform the tasks specified in the mandate received from the manufacturer. The mandate shall allow the authorised representative to do at least the following:

(a) keep the EU declaration of conformity and the technical documentation at the disposal of the market surveillance authority and other competent national authorities for five (5) years;

(b) further to a reasoned request from a competent national authority, provide that authority with all the information and documentation necessary to demonstrate the conformity of a product;

(c) cooperate with the competent national authorities,

at their request, on any action taken to eliminate the non-compliance with the applicable accessibility requirements of products covered by their mandate.

9. (1) Importers shall place only compliant products on the market. Obligations of importers.

(2) Before placing a product on the market, importers shall ensure that the conformity assessment procedure set out in Annex IV to these regulations has been carried out by the manufacturer. They shall ensure that the manufacturer has drawn up the technical documentation required by that Annex, that the product bears the CE marking and is accompanied by the required documents and that the manufacturer has complied with the requirements set out in regulations 7(5) and (6).

(3) Where an importer considers or has reason to believe that a product is not in conformity with the applicable accessibility requirements of these regulations, the importer shall not place the product on the market until it has been brought into conformity. Furthermore, where the product does not comply with the applicable accessibility requirements, the importer shall inform the manufacturer and the market surveillance authority to that effect.

(4) Importers shall indicate their name, registered trade name or registered trademark and the address at which they can be contacted on the product or, where that is not possible, on its packaging or in a document accompanying the product. The contact details shall be in a language easily understood by end-users and competent national authorities.

(5) Importers shall ensure that the product is accompanied by instructions and safety information in a language which can be easily understood by consumers and other end-users, as determined by the market surveillance authority from time to time.

(6) Importers shall ensure that, while a product is under their responsibility, storage or transport conditions do not jeopardise its compliance with the applicable accessibility requirements.

(7) Importers shall, for a period of five (5) years keep a copy of the EU declaration of conformity at the disposal of the market surveillance authority and other competent national authorities and shall ensure that the technical documentation can be made available to those authorities upon request.

(8) Importers who consider or have reason to believe that a product which they have placed on the market is not in conformity with these regulations shall immediately take the corrective measures necessary to bring that product into conformity, or, if appropriate, to withdraw it. Furthermore, where the product does not comply with the

applicable accessibility requirements, importers shall immediately inform the competent national authorities of the Member States in which they made the product available to that effect, giving details, in particular, of the non-compliance and of any corrective measures taken. In such cases, importers shall keep a register of products which do not comply with applicable accessibility requirements, and of the related complaints.

(9) Importers shall, further to a reasoned request from a competent national authority, provide it with all the information and documentation necessary to demonstrate the conformity of a product in a language which can be easily understood by that authority. They shall cooperate with that authority, at its request, on any action taken to eliminate the non-compliance with the applicable accessibility requirements of products which they have placed on the market.

Obligations of distributors.

10. (1) When making a product available on the market, distributors shall act with due care in relation to the requirements of these regulations.

(2) Before making a product available on the market distributors shall verify that the product bears the CE marking, that it is accompanied by the required documents and by instructions and safety information in a language which can be easily understood by consumers and other end-users in the Member State in which the product is to be made available on the market and that the manufacturer and the importer have complied with the requirements set out in regulations 7(5) and (6) and regulation 9(4) respectively.

(3) Where a distributor considers or has reason to believe that a product is not in conformity with the applicable accessibility requirements of these regulations, the distributor shall not make the product available on the market until it has been brought into conformity. Furthermore, where the product does not comply with the applicable accessibility requirements, the distributor shall inform the manufacturer or the importer and the market surveillance authority to that effect.

(4) Distributors shall ensure that, while a product is under their responsibility, storage or transport conditions do not jeopardise its compliance with the applicable accessibility requirements.

(5) Distributors who consider or have reason to believe that a product which they have made available on the market is not in conformity with these regulations shall make sure that the corrective measures necessary to bring that product into conformity, or, if appropriate, to withdraw it, are taken. Furthermore, where the product does not comply with the applicable accessibility requirements, distributors shall immediately inform the competent national authorities of the Member States in which they made the product

available to that effect, giving details, in particular, of the non-compliance and of any corrective measures taken.

(6) Distributors shall, further to a reasoned request from a competent national authority, provide it with all the information and documentation necessary to demonstrate the conformity of a product. They shall cooperate with that authority, at its request, on any action taken to eliminate the non-compliance with the applicable accessibility requirements of products which they have made available on the market.

11. An importer or distributor shall be considered a manufacturer for the purposes of these regulations and shall be subject to the obligations of the manufacturer under regulation 7, where it places a product on the market under its name or trademark or modifies a product already placed on the market in such a way that compliance with the requirements of these regulations may be affected.

Cases in which obligations of manufacturers apply to importers and distributors.

12. (1) Economic operators referred to in regulations 7 to 10 shall, upon request, identify to the market surveillance authority or to competent national authorities, the following:

Identification of economic operators dealing with products.

(a) any other economic operator who has supplied them with a product;

(b) any other economic operator to whom they have supplied a product.

(2) Economic operators referred to in regulations 7 to 10 shall be able to present the information referred to in sub-regulation (1) for a period of five (5) years after they have been supplied with the product and for a period of five (5) years after they have supplied the product.

PART IV – OBLIGATIONS OF SERVICE PROVIDERS

13. (1) Service providers shall ensure that they design and provide services in accordance with the accessibility requirements of these regulations.

Obligations of service providers.

(2) Service providers shall prepare the necessary information in accordance with Annex V to these regulations and shall explain how the services meet the applicable accessibility requirements. The information shall be made available to the public in a written and oral format, including a manner which is accessible to persons with disabilities. Service providers shall keep that information for as long as the service is in operation.

(3) Without prejudice to regulation 1(3), service providers shall ensure that procedures are in place so that the provision of services remains in conformity with the applicable accessibility

requirements. Changes in the characteristics of the provision of the service, changes in applicable accessibility requirements and changes in the harmonised standards or in technical specifications by reference to which a service is declared to meet the accessibility requirements shall be adequately taken into account by the service providers.

(4) In the case of non-conformity, service providers shall take the corrective measures necessary to bring the service into conformity with the applicable accessibility requirements. Furthermore, where the service is not compliant with applicable accessibility requirements, service providers shall immediately inform the competent national authorities of the Member States in which the service is provided, to that effect, giving details, in particular, of the non-compliance and of any corrective measures taken.

(5) Service providers shall, further to a reasoned request from a competent national authority, provide it with all information necessary to demonstrate the conformity of the service with the applicable accessibility requirements. They shall cooperate with that authority, at the request of that authority, on any action taken to bring the service into compliance with those requirements.

PART V – FUNDAMENTAL ALTERATION OF PRODUCTS OR SERVICES AND DISPROPORTIONATE BURDEN TO ECONOMIC OPERATORS

Fundamental alteration and disproportionate burden.

14. (1) The accessibility requirements referred to in regulation 4 shall apply only to the extent that compliance:

(a) does not require a significant change in a product or service that results in the fundamental alteration of its basic nature; and

(b) does not result in the imposition of a disproportionate burden on the economic operators concerned.

(2) Economic operators shall carry out an assessment of whether compliance with the accessibility requirements referred to in regulation 4 would introduce a fundamental alteration or, based on the relevant criteria set out in Annex VI to these regulations, impose a disproportionate burden, as provided for in sub-regulation (1).

(3) Economic operators shall document the assessment referred to in sub-regulation (2). Economic operators shall keep all relevant results for a period of five (5) years to be calculated from the last making available of a product on the market or after a service was last provided, as applicable. Upon a request from the market surveillance authority or from competent national authorities responsible for checking compliance of services, as applicable, the economic operators shall provide the authorities with a copy of the

assessment referred to in sub-regulation (2).

(4) By way of derogation from sub-regulation (3), microenterprises dealing with products shall be exempted from the requirement to document their assessment. However, if the market surveillance authority or a competent national authority so requests, microenterprises dealing with products and which have chosen to rely on sub-regulation (1) shall provide the authority with the facts relevant to the assessment referred to in sub-regulation (2).

(5) Service providers relying on paragraph (b) of sub-regulation (1) shall, with regard to each category or type of service, renew their assessment of whether the burden is disproportionate:

- (a) when the service offered is altered; or
- (b) when requested to do so by the authorities responsible for checking compliance of services; and
- (c) in any event, at least every five (5) years.

(6) Where economic operators receive funding from other sources than the economic operator's own resources, whether public or private, that is provided for the purpose of improving accessibility, they shall not be entitled to rely on paragraph (b) of sub-regulation (1).

(7) Where economic operators rely on sub-regulation (1) for a specific product or service they shall send information to that effect to the market surveillance authority, or relevant competent authorities responsible for checking the compliance of services of the Member State where the specific product is placed on the market or the specific service is provided:

Provided that sub-regulation (1) shall not apply to microenterprises.

PART VI – HARMONISED STANDARDS AND TECHNICAL SPECIFICATIONS OF PRODUCTS AND SERVICES

15. (1) Products and services which are in conformity with harmonised standards or parts thereof the references of which have been published in the Official Journal of the European Union, shall be presumed to be in conformity with the accessibility requirements of these regulations in so far as those standards or parts thereof cover those requirements.

Presumption of conformity.

(2) Products and services which are in conformity with the technical specifications or parts thereof shall be presumed to be in conformity with the accessibility requirements of these regulations in so far as those technical specifications or parts thereof cover those requirements.

PART VII - CONFORMITY OF PRODUCTS AND CE MARKING

EU declaration of conformity of products.

16. (1) The EU declaration of conformity shall state that the fulfilment of the applicable accessibility requirements has been demonstrated. Where as an exception, regulation 14 has been used, the EU declaration of conformity shall state which accessibility requirements are subject to that exception.

(2) The EU declaration of conformity shall have the model structure set out in Annex III to Decision No 768/2008/EC of the European Parliament and of the Council of 9 July 2008 on a common framework for the marketing of products, and repealing Council Decision 93/465/EEC. It shall contain the elements specified in Annex IV to these regulations and shall be continuously updated. The requirements concerning the technical documentation shall avoid imposing any undue burden on microenterprises and SMEs. It shall be translated into the language or languages required by the Member State in which the product is placed or made available on the market.

(3) Where a product is subject to more than one legislative instrument requiring an EU declaration of conformity, a single EU declaration of conformity shall be drawn up in respect of all such legislative instruments. That declaration shall contain the identification of the acts concerned including the publication references.

(4) By drawing up the EU declaration of conformity, the manufacturer shall assume responsibility for the compliance of the product with the requirements of these regulations.

General principles of the CE marking of products.

17. The CE marking shall be subject to the general principles set out in Article 30 of Regulation (EC) No 765/2008 of the European Parliament and of the Council of 9 July 2008 setting out the requirements for accreditation and repealing Regulation (EEC) No 339/93.

Rules and conditions for affixing the CE marking.

18. (1) The CE marking shall be affixed visibly, legibly and indelibly to the product or to its data plate. Where that is not possible, or not warranted, on account of the nature of the product, it shall be affixed to the packaging and to the accompanying documents.

(2) The CE marking shall be affixed before the product is placed on the market.

S.L. 427.73.

(3) In respect of this regulation, the relevant provisions of Regulation (EC) No 765/2008 and of the Market Surveillance and CE Marking Regulations shall be observed and adhered to, to ensure the correct application of the regime governing the CE marking, and that appropriate action is taken in the event of improper use of that marking.

**PART VIII – MARKET SURVEILLANCE OF PRODUCTS AND
UNION SAFEGUARD PROCEDURE**

19. (1) Article 15(3), articles 16 to 19, article 21, articles 23 to 28 and article 29(2) and (3) of Regulation (EC) No 765/2008 shall apply to products.

Market
surveillance of
products.

(2) When carrying out market surveillance of products, the market surveillance authority shall, when the economic operator has relied on regulation 14 of these regulations:

(a) check that the assessment referred to in regulation 14 has been conducted by the economic operator;

(b) review that assessment and its results, including the correct use of the criteria set out in Annex VI to these regulations; and

(c) check compliance with the applicable accessibility requirements.

(3) Information held by the market surveillance authority concerning the compliance of economic operators with the applicable accessibility requirements of these regulations and the assessment provided for in regulation 14, shall be made available to consumers upon request by said market surveillance authority, and in an accessible format, except where that information cannot be provided for reasons of confidentiality as provided for in article 19(5) of Regulation (EC) No 765/2008.

20. (1) Where the market surveillance authority has sufficient reason to believe that a product covered by these regulations does not comply with the applicable accessibility requirements:

Procedure at
national level for
dealing with
products not
complying with the
applicable
accessibility
requirements.

(a) it shall carry out an evaluation in relation to the product concerned covering all requirements laid down in these regulations. The relevant economic operators shall fully cooperate with the market surveillance authority for that purpose;

(b) where, in the course of the evaluation referred to in paragraph (a), the market surveillance authority finds that the product does not comply with the requirements laid down in these regulations, it shall without delay require the relevant economic operator to take all appropriate corrective action to bring the product into compliance with those requirements within a reasonable period, commensurate with the nature of the non-compliance, as it may prescribe;

(c) the market surveillance authority shall require the relevant economic operator to withdraw the product from the

market, within an additional reasonable period, only if the relevant economic operator has failed to take adequate corrective action within the period referred to in paragraph (b):

Provided that article 21 of Regulation (EC) No 765/2008 shall apply to the measures referred to in paragraphs (b) and (c).

(2) Where the market surveillance authority considers that non-compliance is not restricted to its national territory, it shall inform the Commission and the other Member States of the results of the evaluation and of the actions which it would have required the economic operator to take.

(3) The economic operator shall ensure that all appropriate corrective action is taken in respect of all the products concerned that it has made available on the market throughout the whole Union.

(4) Where the relevant economic operator does not take adequate corrective action within the period referred to in paragraph (c) of sub-regulation (1), the market surveillance authority shall take all appropriate provisional measures to prohibit or restrict the products being made available on its national market or to withdraw the product from the market. The market surveillance authority shall inform the Commission and the other Member States, without delay, of those measures.

(5) The information communicated to the Commission and to the other Member States referred to in sub-regulation (4) shall include all available details, in particular the data necessary for the identification of the non-compliant product, the origin of the product, the nature of the non-compliance alleged and the accessibility requirements with which the product does not comply, the nature and duration of the national measures taken and the arguments put forward by the relevant economic operator. In particular, the market surveillance authority shall indicate whether the non-compliance is due to either:

(a) the failure of the product to meet the applicable accessibility requirements; or

(b) the shortcomings in the harmonised standards or in the technical specifications referred to in regulation 15 conferring a presumption of conformity.

(6) Should the procedure initiated under this regulation have been initiated by the competent national authorities of another Member State, the market surveillance authority shall without delay inform the Commission and the other Member States of any measures adopted and of any additional information at its disposal relating to the non-

compliance of the product concerned, and, in the event of disagreement with the notified national measure, of its objections.

(7) Where, within three (3) months of receipt of the information referred to in sub-regulation (4), no objection has been raised by either a Member State or the Commission in respect of a provisional measure taken by the market surveillance authority, that measure shall be deemed justified.

(8) The market surveillance authority shall ensure that appropriate restrictive measures, such as withdrawal of the product from the market, are taken in respect of the product concerned without delay.

21. Where, on completion of the procedure set out in regulation 20(3) and (4), objections are raised against a measure taken by a Member State and, having reasonable evidence to suggest that a national measure is contrary to Union law, the Commission enters into consultation with the Member States and the relevant economic operator, to evaluate the national measure, and decides whether said national measure is justified or not, after the Commission would have communicated its decision to all Member States and to the relevant economic operator:

Union safeguard
procedure.

(i) where the national measure is considered justified, the market surveillance authority shall take the measures necessary to ensure that the non-compliant product is withdrawn from the market, and shall inform the Commission accordingly;

(ii) where the national measure is considered unjustified, the market surveillance authority shall withdraw the measure;

(iii) where the national measure is considered justified and the non-compliance of the product is attributed to shortcomings in the harmonised standards referred to in paragraph (b) of regulation 20(5), the Commission shall apply the procedure provided for in article 11 of Regulation (EU) No 1025/2012 of the European Parliament and of the Council of 25 October 2012 on European standardisation, amending Council Directives 89/686/EEC and 93/15/EEC and Directives 94/9/EC, 94/25/EC, 95/16/EC, 97/23/EC, 98/34/EC, 2004/22/EC, 2007/23/EC, 2009/23/EC and 2009/105/EC of the European Parliament and of the Council and repealing Council Decision 87/95/EEC and Decision No 1673/2006/EC of the European Parliament and of the Council;

(iv) where the national measure is considered justified and the non-compliance of the product is attributed to shortcomings in the technical specifications referred to in

paragraph (b) of regulation 20(5), the Commission shall, without delay, adopt implementing acts amending or repealing the technical specification concerned. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 27(2) of the Directive.

Formal non-compliance.

22. (1) Without prejudice to regulation 20, where the market surveillance authority makes one of the following findings, it shall require the relevant economic operator to put an end to the non-compliance concerned:

(a) the CE marking has been affixed in violation of article 30 of Regulation (EC) No 765/2008 or of regulation 18 of these regulations;

(b) the CE marking has not been affixed;

(c) the EU declaration of conformity has not been drawn up;

(d) the EU declaration of conformity has not been drawn up correctly;

(e) the technical documentation is either not available or not complete;

(f) the information referred to in regulation 7(6) or regulation 9(4) is absent, false or incomplete;

(g) any other administrative requirement provided for in regulation 7 or regulation 9 is not fulfilled.

(2) Where the non-compliance referred to in sub-regulation (1) persists, the market surveillance authority shall take all appropriate measures to restrict or prohibit the product being made available on the market or to ensure that it is withdrawn from the market.

PART IX - COMPLIANCE OF SERVICES

Compliance of services.

23. (1) The market surveillance authority shall establish, implement and periodically update adequate procedures in order to:

(a) check the compliance of services with the requirements of these regulations, including the assessment referred to in regulation 14 to which regulation 19(2) shall apply *mutatis mutandis*;

(b) follow up complaints or reports on issues relating to non-compliance of services with the accessibility requirements of these regulations;

(c) verify that the economic operator has taken the necessary corrective action.

(2) The market surveillance authority shall also ensure that the public is informed of the existence, responsibilities, identity, work and decisions of the market surveillance authority as the authority responsible for the implementation of the procedures referred to in sub-regulation (1) with respect to the compliance of services. Such information shall be made available in accessible formats upon request.

PART X - ACCESSIBILITY REQUIREMENTS IN OTHER LEGISLATION

24. (1) As regards the products and services referred to in regulation 3 of these regulations, the accessibility requirements set out in Annex I to these regulations shall constitute mandatory accessibility requirements within the meaning of the Public Procurement Regulations, the Public Procurement of Entities operating in the Water, Energy, Transport and Postal Services Sectors Regulations, the Emergency Procurement Regulations and the Concession Contract Regulations.

Accessibility under
other legislation.

S.L. 601.03.
S.L. 601.05.

S.L. 601.08.
S.L. 601.09.

(2) Any product or service, the features, elements or functions of which comply with the accessibility requirements set out in Annex I to these regulations in accordance with Section VI thereof shall be presumed to fulfil the relevant obligations set out in legislation other than these regulations, as regards accessibility, for those features, elements or functions, unless otherwise provided in those other acts.

25. Conformity with harmonised standards and technical specifications or parts thereof which are adopted in accordance with regulation 15, shall create a presumption of compliance with regulation 24 in so far as those standards and technical specifications or parts thereof meet the accessibility requirements of these regulations.

Harmonised
standards and
technical
specifications for
other legislation.

PART XI – ENFORCEMENT AND PENALTIES

26. (1) The market surveillance authority shall undertake efforts in terms of article 32A of the Equal Opportunities (Persons with Disability) Act to ensure adequate and effective compliance with these regulations.

Enforcement.

Cap. 413.

(2) Consumers, as well as public bodies or private associations, organisations or other legal entities which have a legitimate interest, and are acting on behalf of said consumers, may take or support appropriate action to ensure that the rights of the consumers in terms of these regulations are complied with, in terms of article 3 of the Act, and through any other means of redress available in terms of applicable legislation from time to time.

24	[S.L. 627.03	<i>ACCESSIBILITY MEASURES (EUROPEAN ACCESSIBILITY ACT)</i>
S.L. 601.03. S.L. 601.05. S.L. 601.08. S.L. 601.09.	(3) This regulation shall not apply in respect of procurement procedures which are subject to the Public Procurement Regulations, the Public Procurement of Entities operating in the Water, Energy, Transport and Postal Services Sectors Regulations, the Emergency Procurement Regulations or the Concession Contract Regulations, in which respect other applicable legislation as in force from time to time shall apply.	
Penalties.	27. (1) Penalties applicable to infringements of provisions of these regulations, to be enforced by the market surveillance authority, and taking into account the extent of the non-compliance, including its seriousness, and the number of units of non-complying products or services concerned, as well as the number of persons affected, shall be prescribed, and necessary measures to ensure their implementation shall be undertaken by said market surveillance authority, in terms of article 32 of the Equal Opportunities (Persons with Disability) Act.	
Cap. 413.	(2) The penalties referred to in sub-regulation (1) shall also be accompanied by effective remedial action in case of non-compliance of the economic operator, prescribed in terms of the Equal Opportunities (Persons with Disability) Act.	
Cap. 413.	(3) This regulation shall not apply in respect of procurement procedures which are subject to the Public Procurement Regulations, the Public Procurement of Entities operating in the Water, Energy, Transport and Postal Services Sectors Regulations, the Emergency Procurement Regulations or the Concession Contract Regulations, in which respect other applicable legislation as in force from time to time shall apply.	
S.L. 601.03. S.L. 601.05. S.L. 601.08. S.L. 601.09.		

ANNEX I

ACCESSIBILITY REQUIREMENTS FOR PRODUCTS AND SERVICES

Section I

General accessibility requirements related to all products covered by these regulations in accordance with regulation 3(1)

Products must be designed and produced in such a way as to maximise their foreseeable use by persons with disabilities and shall be accompanied where possible in or on the product by accessible information on their functioning and on their accessibility features.

1. Requirements on the provision of information

(a) the information on the use of the product provided on the product itself (labelling, instructions and warning) shall be:

(i) made available via more than one sensory

channel;

(ii) presented in an understandable way;

(iii) presented to users in ways they can perceive;

(iv) presented in fonts of adequate size and suitable shape, taking into account foreseeable conditions of use, and using sufficient contrast, as well as adjustable spacing between letters, lines and paragraphs;

(b) the instructions for use of a product, where not provided on the product itself but made available through the use of the product or through other means such as a website, including the accessibility functions of the product, how to activate them and their interoperability with assistive solutions shall be publicly available when the product is placed on the market and shall:

(i) be made available via more than one sensory channel;

(ii) be presented in an understandable way;

(iii) be presented to users in ways they can perceive;

(iv) be presented in fonts of adequate size and suitable shape, taking into account foreseeable conditions of use and using sufficient contrast, as well as adjustable spacing between letters, lines and paragraphs;

(v) with regard to content, be made available in text formats that can be used for generating alternative assistive formats to be presented in different ways and via more than one sensory channel;

(vi) be accompanied by an alternative presentation of any non-textual content;

(vii) include a description of the user interface of the product (handling, control and feedback, input and output) which is provided in accordance with point 2; the description shall indicate for each of the points in point 2 whether the product provides those features;

(viii) include a description of the functionality of the product which is provided by functions aiming to address the needs of persons with disabilities in accordance with point 2; the description shall indicate for

each of the points in point 2 whether the product provides those features;

(ix) include a description of the software and hardware interfacing of the product with assistive devices; the description shall include a list of those assistive devices which have been tested together with the product.

2. User interface and functionality design:

The product, including its user interface, shall contain features, elements and functions, that allow persons with disabilities to access, perceive, operate, understand and control the product by ensuring that:

(a) when the product provides for communication, including interpersonal communication, operation, information, control and orientation, it shall do so via more than one sensory channel; this shall include providing alternatives to vision, auditory, speech and tactile elements;

(b) when the product uses speech it shall provide alternatives to speech and vocal input for communication, operation control and orientation;

(c) when the product uses visual elements it shall provide for flexible magnification, brightness and contrast for communication, information and operation, as well as ensure interoperability with programmes and assistive devices to navigate the interface;

(d) when the product uses colour to convey information, indicate an action, require a response or identify elements, it shall provide an alternative to colour;

(e) when the product uses audible signals to convey information, indicate an action, require a response or identify elements, it shall provide an alternative to audible signals;

(f) when the product uses visual elements it shall provide for flexible ways of improving vision clarity;

(g) when the product uses audio it shall provide for user control of volume and speed, and enhanced audio features including the reduction of interfering audio signals from surrounding products and audio clarity;

(h) when the product requires manual operation and control, it shall provide for sequential control and alternatives to fine motor control, avoiding the need for simultaneous controls for manipulation, and shall use tactile discernible parts;

-
- (i) the product shall avoid modes of operation requiring extensive reach and great strength;
 - (j) the product shall avoid triggering photosensitive seizures;
 - (k) the product shall protect the user's privacy when he uses the accessibility features;
 - (l) the product shall provide an alternative to biometrics identification and control;
 - (m) the product shall ensure the consistency of the functionality and shall provide enough, and flexible amounts of, time for interaction;
 - (n) the product shall provide software and hardware for interfacing with the assistive technologies;
 - (o) the product shall comply with the following sector-specific requirements:
 - (i) self-service terminals:
 - shall provide for text-to-speech technology;
 - shall allow for the use of personal headsets;
 - where a timed response is required, shall alert the user via more than one sensory channel;
 - shall give the possibility to extend the time given;
 - shall have an adequate contrast and tactilely discernible keys and controls when keys and controls are available;
 - shall not require an accessibility feature to be activated in order to enable a user who needs the feature to turn it on;
 - when the product uses audio or audible signals, it shall be compatible with assistive devices and technologies available at Union level, including hearing technologies such as hearing aids, telecoils, cochlear implants and assistive listening devices;
 - (ii) e-readers shall provide for text-to-speech

technology;

(iii) consumer terminal equipment with interactive computing capability, used for the provision of electronic communications services:

— shall, when such products have text capability in addition to voice, provide for the handling of real time text and support high fidelity audio;

— shall, when they have video capabilities in addition to or in combination with text and voice, provide for the handling of total conversation including synchronised voice, real time text, and video with a resolution enabling sign language communication;

— shall ensure effective wireless coupling to hearing technologies;

— shall avoid interferences with assistive devices;

(iv) consumer terminal equipment with interactive computing capability, used for accessing audio visual media services shall make available to persons with disabilities the accessibility components provided by the audiovisual media service provider, for user access, selection, control, and personalisation and for transmission to assistive devices.

3. Support services:

Where available, support services (help desks, call centres, technical support, relay services and training services) shall provide information on the accessibility of the product and its compatibility with assistive technologies, in accessible modes of communication.

Section II

Accessibility requirements related to products in regulation 3(1), except for the self-service terminals referred to in regulation 3(1)(b)

In addition to the requirements of Section I, the packaging and instructions of products covered by this Section shall be made accessible, in order to maximise their foreseeable use by persons with disabilities. This means that:

(a) the packaging of the product, including the information provided in it (e.g. about opening, closing, use,

disposal), including, when provided, information about the accessibility characteristics of the product, shall be made accessible; and, when feasible, that accessible information shall be provided on the package;

(b) the instructions for the installation and maintenance, storage and disposal of the product not provided on the product itself but made available through other means, such as a website, shall be publicly available when the product is placed on the market and shall comply with the following requirements:

(i) be available via more than one sensory channel;

(ii) be presented in an understandable way;

(iii) be presented to users in ways they can perceive;

(iv) be presented in fonts of adequate size and suitable shape, taking into account foreseeable conditions of use, and using sufficient contrast, as well as adjustable spacing between letters, lines and paragraphs;

(v) content of instructions shall be made available in text formats that can be used for generating alternative assistive formats to be presented in different ways and via more than one sensory channel; and

(vi) instructions containing any non-textual content shall be accompanied by an alternative presentation of that content.

Section III

General accessibility requirements related to all services covered by these regulations in accordance with regulation 3(2)

The provision of services in order to maximise their foreseeable use by persons with disabilities, shall be achieved by:

(a) ensuring the accessibility of the products used in the provision of the service, in accordance with Section I of this Annex and, where applicable, Section II thereof;

(b) providing information about the functioning of the service, and where products are used in the provision of the service, its link to these products as well as information about their accessibility characteristics and interoperability with assistive devices and facilities:

- (i) making the information available via more than one sensory channel;
 - (ii) presenting the information in an understandable way;
 - (iii) presenting the information to users in ways they can perceive;
 - (iv) making the information content available in text formats that can be used to generate alternative assistive formats to be presented in different ways by the users and via more than one sensory channel;
 - (v) presenting in fonts of adequate size and suitable shape, taking into account foreseeable conditions of use and using sufficient contrast, as well as adjustable spacing between letters, lines and paragraphs;
 - (vi) supplementing any non-textual content with an alternative presentation of that content; and
 - (vii) providing electronic information needed in the provision of the service in a consistent and adequate way by making it perceivable, operable, understandable and robust;
- (c) making websites, including the related online applications, and mobile device-based services, including mobile applications, accessible in a consistent and adequate way by making them perceivable, operable, understandable and robust;
- (d) where available, support services (help desks, call centres, technical support, relay services and training services) providing information on the accessibility of the service and its compatibility with assistive technologies, in accessible modes of communication.

Section IV

Additional accessibility requirements related to specific services

The provision of services in order to maximise their foreseeable use by persons with disabilities, shall be achieved by including functions, practices, policies and procedures and alterations in the operation of the service targeted to address the needs of persons with disabilities and ensure interoperability with assistive technologies:

- (a) Electronic communications services, including emergency communications referred to in the Emergency Communications, the Single European Emergency Call Service

("112" Number) and the European Harmonised Services of Social Value ("116" Numbering Range) Regulations:

- (i) providing real time text in addition to voice communication;
 - (ii) providing total conversation where video is provided in addition to voice communication;
 - (iii) ensuring that emergency communications using voice, text (including real time text) is synchronised and where video is provided is also synchronised as a total conversation and is transmitted by the electronic communications service providers to the most appropriate PSAP.
- (b) Services providing access to audiovisual media services:
- (i) providing electronic programme guides (EPGs) which are perceivable, operable, understandable and robust and provide information about the availability of accessibility;
 - (ii) ensuring that the accessibility components (access services) of the audiovisual media services such as subtitles for the deaf and hard of hearing, audio descriptions, spoken subtitles and sign language interpretation are fully transmitted with adequate quality for accurate display, and synchronised with sound and video, while allowing for user control of their display and use.
- (c) Air, bus, rail and waterborne passenger transport services except for urban and suburban transport services and regional transport services:
- (i) ensuring the provision of information on the accessibility of vehicles, the surrounding infrastructure and the built environment and on assistance for persons with disabilities;
 - (ii) ensuring the provision of information about smart ticketing (electronic reservation, booking of tickets, etc.), real-time travel information (timetables, information about traffic disruptions, connecting services, onwards travel with other transport modes, etc.), and additional service information (e.g. staffing of stations, lifts that are out of order or services that are temporarily unavailable).
- (d) Urban and suburban transport services and

regional transport services: ensuring the accessibility of self-service terminals used in the provision of the service in accordance with Section I of this Annex.

(e) Consumer banking services:

(i) providing identification methods, electronic signatures, security, and payment services which are perceivable, operable, understandable and robust;

(ii) ensuring that the information is understandable, without exceeding a level of complexity superior to level B2 (upper intermediate) of the Council of Europe's Common European Framework of Reference for Languages.

(f) E-books:

(i) ensuring that, when an e-book contains audio in addition to text, it then provides synchronised text and audio;

(ii) ensuring that e-book digital files do not prevent assistive technology from operating properly;

(iii) ensuring access to the content, the navigation of the file content and layout including dynamic layout, the provision of the structure, flexibility and choice in the presentation of the content;

(iv) allowing alternative renditions of the content and its interoperability with a variety of assistive technologies, in such a way that it is perceivable, understandable, operable and robust;

(v) making them discoverable by providing information through metadata about their accessibility features;

(vi) ensuring that digital rights management measures do not block accessibility features.

(g) E-Commerce services:

(i) providing the information concerning accessibility of the products and services being sold when this information is provided by the responsible economic operator;

(ii) ensuring the accessibility of the functionality for identification, security and payment when delivered as

part of a service instead of a product by making it perceivable, operable, understandable and robust;

(iii) providing identification methods, electronic signatures, and payment services which are perceivable, operable, understandable and robust.

Section V

Specific accessibility requirements related to the answering of emergency communications to the single European emergency number "112" by the most appropriate PSAP

In order to maximise their foreseeable use by persons with disabilities, the answering of emergency communications to the single European emergency number "112" by the most appropriate PSAP, shall be achieved by including functions, practices, policies and procedures and alterations targeted to address the needs of persons with disabilities.

Emergency communications to the single European emergency number "112" shall be appropriately answered, in the manner best suited to the national organisation of emergency systems, by the most appropriate PSAP using the same communication means as received, namely by using synchronised voice and text (including real time text), or, where video is provided, voice, text (including real time text) and video synchronised as total conversation.

Section VI

Accessibility requirements for features, elements or functions of products and services in accordance with regulation 24(2)

The presumption to fulfil the relevant obligations set out in other legislation concerning features, elements or functions of products and services requires the following:

1. Products:

(a) the accessibility of the information concerning the functioning and accessibility features related to products complies with the corresponding elements set out in point 1 of Section I of this Annex, namely information on the use of the product provided on the product itself and the instructions for use of a product, not provided in the product itself but made available through the use of the product or other means such as a website;

(b) the accessibility of features, elements and functions of the user interface and the functionality design

of products complies with the corresponding accessibility requirements of such user interface or functionality design set out in point 2 of Section I of this Annex;

(c) the accessibility of the packaging, including the information provided in it and instructions for the installation and maintenance, storage and disposal of the product not provided in the product itself but made available through other means such as a website, except for self-service terminals, complies with the corresponding accessibility requirements set out in Section II of this Annex.

2. Services:

the accessibility of the features, elements and functions of services complies with the corresponding accessibility requirements for those features, elements and functions set out in the services-related Sections of this Annex.

Section VII

Functional performance criteria

In order to maximise the foreseeable use by persons with disabilities, when the accessibility requirements, set out in Sections I to VI of this Annex, do not address one or more functions of the design and production of products or the provision of services, those functions or means shall be accessible by complying with the related functional performance criteria.

Those functional performance criteria may only be used as an alternative to one or more specific technical requirements, when these are referred to in the accessibility requirements, if and only if the application of the relevant functional performance criteria complies with the accessibility requirements and it determines that the design and production of products and the provision of services results in equivalent or increased accessibility for the foreseeable use by persons with disabilities.

(a) Usage without vision

Where the product or service provides visual modes of operation, it shall provide at least one mode of operation that does not require vision.

(b) Usage with limited vision

Where the product or service provides visual modes of operation, it shall provide at least one mode of operation that enables users to operate the product with limited vision.

(c) Usage without perception of colour

Where the product or service provides visual modes of operation, it shall provide at least one mode of operation that does not require user perception of colour.

(d) Usage without hearing

Where the product or service provides auditory modes of operation, it shall provide at least one mode of operation that does not require hearing.

(e) Usage with limited hearing

Where the product or service provides auditory modes of operation, it shall provide at least one mode of operation with enhanced audio features that enables users with limited hearing to operate the product.

(f) Usage without vocal capability

Where the product or service requires vocal input from users, it shall provide at least one mode of operation that does not require vocal input. Vocal input includes any orally-generated sounds like speech, whistles or clicks.

(g) Usage with limited manipulation or strength

Where the product or service requires manual actions, it shall provide at least one mode of operation that enables users to make use of the product through alternative actions not requiring fine motor control and manipulation, hand strength or operation of more than one control at the same time.

(h) Usage with limited reach

The operational elements of products shall be within reach of all users. Where the product or service provides a manual mode of operation, it shall provide at least one mode of operation that is operable with limited reach and limited strength.

(i) Minimising the risk of triggering photosensitive seizures

Where the product provides visual modes of operation, it shall avoid modes of operation that trigger photosensitive seizures.

(j) Usage with limited cognition

The product or service shall provide at least one mode of operation incorporating features that make it simpler and easier to use.

(k) Privacy

Where the product or service incorporates features that are provided for accessibility, it shall provide at least one mode of operation that maintains privacy when using those features that are provided for accessibility.

ANNEX II

INDICATIVE NON-BINDING EXAMPLES OF POSSIBLE SOLUTIONS THAT CONTRIBUTE TO MEETING THE ACCESSIBILITY REQUIREMENTS IN ANNEX I

SECTION I:

EXAMPLES RELATED TO GENERAL ACCESSIBILITY REQUIREMENTS FOR ALL PRODUCTS COVERED BY THESE REGULATIONS IN ACCORDANCE WITH REGULATION 3(1)

REQUIREMENTS IN SECTION I OF ANNEX I

EXAMPLES

1. The provision of information

(a)

(i)

Providing visual and tactile information or visual and auditory information indicating the place where to introduce a card in a self-service terminal so that blind persons and deaf persons can use the terminal.

(ii)

Using the same words in a consistent manner, or in a clear and logical structure, so that persons with intellectual disabilities can better understand it.

(iii)

Providing a tactile relief format or sound in addition to a text warning so that blind persons can perceive it.

(iv)

Allowing that text can be read by persons who are visually impaired.

(b)

(i)

Providing electronic files which can be read by a computer using screen readers so that blind persons can use the information.

- (ii) Using the same words in a consistent manner, or in a clear and logical structure, so that persons with intellectual disabilities can better understand them.
- (iii) Providing subtitles when video instructions are provided.
- (iv) Allowing that the text can be read by persons who are visually impaired.
- (v) Printing in Braille, so that a blind person can use them.
- (vi) Accompanying a diagram with a text description identifying the main elements or describing key actions.
- (vii) No example provided.
- (viii) No example provided.
- (ix) Including a socket and software in automated teller machines which will allow the plugging of a headphone which will receive the text on the screen in the form of sound.

2. User interface and functionality design

- (a) Providing instructions in the form of voice and text, or by incorporating tactile signs in a keypad, so that persons who are blind or hard of hearing can interact with the product.
- (b) Offering in a self-service terminal in addition to the spoken instructions, for example, instructions in the form of text or images so that deaf persons can also perform the action required.
- (c) Allowing users to enlarge a text, to zoom in on a particular pictogram or to increase the contrast, so that persons who are visually impaired can perceive the information.

-
- (d) In addition of giving a choice to press the green or the red button for selecting an option, providing in writing on the buttons what the options are, in order to allow person who are colour blind to make the choice.
- (e) When a computer gives an error signal, providing a written text or an image indicating the error, so as to allow deaf persons to apprehend that an error is occurring.
- (f) Allowing for additional contrast in foreground images so that persons who have low vision can see them.
- (g) Allowing the user of a telephone to select the volume of the sound and reduce the interference with hearing aids so that persons who are hard of hearing can use the telephone.
- (h) Making touch screen buttons bigger and well separated so that persons with tremor can press them.
- (i) Ensuring that buttons to be pressed do not require much force so that persons who have motor impairments can use them.
- (j) Avoiding flickering images so that persons who get seizures are not at risk.
- (k) Allowing the use of headphones when spoken information is provided by automated teller machines.
- (l) As an alternative to fingerprint recognition, allowing users who cannot use their hands to select a password for locking and unlocking a phone.

- (m) Ensuring that the software reacts in a predictable way when a particular action is performed and providing enough time to enter a password so that is easy to use for persons with intellectual disabilities.
- (n) Offering a connection with a refreshable Braille display so that blind persons can use the computer.
- (o) Examples of sector-specific requirements
 - (i) No example provided.
 - (ii) No example provided.
 - (iii) First indent Providing that a mobile phone should be able to handle real time text conversations so that persons who are hard of hearing can exchange information in an interactive way.
 - (iii) Fourth indent Allowing the simultaneous use of video to display sign language and text to write a message, so that two deaf persons can communicate with each other or with a hearing person.
 - (iv) Ensuring that subtitles are transmitted through the set top box for their use by deaf persons.

3. Support services: No example provided

SECTION II:

EXAMPLES RELATED TO ACCESSIBILITY REQUIREMENTS FOR PRODUCTS IN REGULATION 3(1), EXCEPT FOR THE SELF- SERVICE TERMINALS REFERRED TO IN REGULATION 3(1)(b)

REQUIREMENTS IN SECTION II OF ANNEX I

EXAMPLES

Packaging and instructions of products

- (a) Indicating in the packaging that the phone contains accessibility features for persons with disabilities.
- (b)

- | | |
|-------|--|
| (i) | Providing electronic files which can be read by a computer using screen readers so that blind persons can use the information. |
| (ii) | Using the same words in a consistent manner, or in a clear and logical structure, so that persons with intellectual disabilities can better understand it. |
| (iii) | Providing tactile relief format or sound when a text warning is present so that blind persons receive the warning. |
| (iv) | Providing that the text can be read by persons who are visually impaired. |
| (v) | Printing in Braille, so that a blind person can read it. |
| (vi) | Supplementing a diagram with a text description identifying the main elements or describing key actions. |

SECTION III:

EXAMPLES RELATED TO GENERAL ACCESSIBILITY
REQUIREMENTS FOR ALL SERVICES COVERED BY THESE
REGULATIONS IN ACCORDANCE WITH REGULATION 3(2)

REQUIREMENTS IN SECTION
III OF ANNEX I

EXAMPLES

The provision of services

- | | |
|-------|--|
| (a) | No examples provided. |
| (b) | |
| (i) | Providing electronic files which can be read by a computer using screen readers so that blind persons can use the information. |
| (ii) | Using the same words in a consistent manner or in a clear and logical structure so that persons with intellectual disabilities can better understand it. |
| (iii) | Including subtitles when a video with instructions is provided. |

- | | |
|-------|--|
| (iv) | Providing that a blind person can use a file by printing it in Braille. |
| (v) | Providing that the text can be read by persons who are visually impaired. |
| (vi) | Supplementing a diagram with a text description identifying the main elements or describing key actions. |
| (vii) | When a service provider offers a USB-key containing information about the service, providing that information is accessible. |
| (c) | Providing text description of pictures, making all functionality available from a keyboard, giving users enough time to read, making content appear and operate in a predictable way, and providing compatibility with assistive technologies, so that persons with diverse disabilities can read and interact with a website. |
| (d) | No example provided. |

SECTION IV:

EXAMPLES RELATED TO ADDITIONAL ACCESSIBILITY REQUIREMENTS FOR SPECIFIC SERVICES

REQUIREMENTS IN SECTION IV OF ANNEX I

EXAMPLES

Specific services

- | | |
|------|--|
| (a) | |
| (i) | Providing that persons who are hard of hearing could write and receive text in an interactive manner and in real time. |
| (ii) | Providing that deaf persons can use sign language to communicate among themselves. |

-
- (iii) Providing that a person who has speech and hearing impairments and chooses to use a combination of text, voice and video, knows that the communication is transmitted through the network to an emergency service.
 - (b)
 - (i) Providing that a blind person can select programmes on the television.
 - (ii) Supporting the possibility to select, personalise and display "access services" such as subtitles for deaf persons or persons who are hard of hearing, audio descriptions, spoken subtitles and sign language interpretation, by providing means for effective wireless coupling to hearing technologies or by providing user controls to activate "access services" for audiovisual media services at the same level of prominence as the primary media controls.
 - (c)
 - (i) No example provided.
 - (ii) No example provided.
 - (d) No example provided.
 - (e)
 - (i) Making the identification dialogues on a screen readable by screen readers so that blind persons can use them.
 - (ii) No example provided.
 - (f)
 - (i) Providing that a person with dyslexia can read and hear the text at the same time.
 - (ii) Enabling synchronized text and audio output or by enabling a refreshable Braille transcript.

- (iii) Providing that a blind person can access the index or change chapters.
- (iv) No example provided.
- (v) Ensuring that information on their accessibility features is available in the electronic file so that persons with disabilities can be informed.
- (vi) Ensuring that there is no blocking, for example that technical protection measures, rights management information or interoperability issues do not prevent the text from being read aloud by the assistive devices, so that blind users can read the book.
- (g)
- (i) Ensuring that available information on the accessibility features of a product is not deleted.
- (ii) Making the payment service user interface available by voice so that blind persons can make online purchases independently.
- (iii) Making the identification dialogues on a screen readable by screen readers so that blind persons can use them.

ANNEX III

ACCESSIBILITY REQUIREMENTS FOR THE PURPOSE OF REGULATION 4(4) CONCERNING THE BUILT ENVIRONMENT WHERE THE SERVICES UNDER THE SCOPE OF THESE REGULATIONS ARE PROVIDED

In order to maximise the foreseeable use in an independent manner by persons with disabilities of the built environment in which a service is provided and which is under the responsibility of the service provider, as referred to in regulation 4(4), the accessibility of areas intended for public access shall include the following aspects:

- (a) use of related outdoor areas and facilities;
- (b) approaches to buildings;
- (c) use of entrances;

- (d) use of paths in horizontal circulations;
- (e) use of paths in vertical circulation;
- (f) use of rooms by the public;
- (g) use of equipment and facilities used in the provision of the service;
- (h) use of toilets and sanitary facilities;
- (i) use of exits, evacuation routes and concepts for emergency planning;
- (j) communication and orientation via more than one sensory channel;
- (k) use of facilities and buildings for their foreseeable purpose;
- (l) protection from hazards in the environment indoors and outdoors.

ANNEX IV

CONFORMITY ASSESSMENT PROCEDURE – PRODUCTS

1. Internal production control

Internal production control is the conformity assessment procedure whereby the manufacturer fulfils the obligations laid down in points 2, 3 and 4 of this Annex, and ensures and declares on its sole responsibility that the products concerned satisfy the appropriate requirements of these regulations.

2. Technical documentation

The manufacturer shall establish the technical documentation. The technical documentation shall make it possible to assess the conformity of the product to the relevant accessibility requirements referred to in regulation 4 and, in case the manufacturer relied on the exemption found in regulation 14, to demonstrate that relevant accessibility requirements would introduce a fundamental alteration or impose a disproportionate burden. The technical documentation shall specify only the applicable requirements and cover, as far as relevant for the assessment, the design, manufacture and operation of the product.

The technical documentation shall, wherever applicable, contain at least the following elements:

(a) a general description of the product;

(b) a list of the harmonised standards and technical specifications the references of which have been published in the *Official Journal of the European Union*, applied in full or in part, and descriptions of the solutions adopted to meet the relevant accessibility requirements referred to in regulation 4 where those harmonised standards or technical specifications have not been applied;

In the event of partly applied harmonised standards or technical specifications, the technical documentation shall specify the parts which have been applied.

3. Manufacturing

The manufacturer shall take all measures necessary so that the manufacturing process and its monitoring ensure compliance of the products with the technical documentation referred to in point 2 of this Annex and with the accessibility requirements of these regulations

4. CE marking and EU declaration of conformity

4.1 The manufacturer shall affix the CE marking referred to in these regulations to each individual product that satisfies the applicable requirements of these regulations.

4.2 The manufacturer shall draw up a written EU declaration of conformity for a product model. The EU declaration of conformity shall identify the product for which it has been drawn up.

A copy of the EU declaration of conformity shall be made available to the relevant authorities upon request.

5. Authorised representative

The manufacturer's obligations set out in point 4 may be fulfilled by its authorised representative, on its behalf and under its responsibility, provided that they are specified in the mandate.

ANNEX V**INFORMATION ON SERVICES MEETING ACCESSIBILITY REQUIREMENTS**

S.L. 378.17.

1. The service provider shall include the information assessing how the service meets the accessibility requirements referred to in regulation 4 in the general terms and conditions, or equivalent document. The information shall describe the applicable requirements and cover, as far as relevant for the assessment the design and the operation of the service. In addition to the consumer information requirements of the Consumer Rights Regulations, the information shall at least, where applicable, contain the following elements:

- (a) a general description of the service in accessible formats;
- (b) descriptions and explanations necessary for the understanding of the operation of the service;
- (c) a description of how the relevant accessibility requirements set out in Annex I are met by the service.

2. To comply with point 1 of this Annex the service provider may apply in full or in part the harmonised standards and technical specifications, for which references have been published in the *Official Journal of the European Union*.

3. The service provider shall provide information demonstrating that the service delivery process and its monitoring ensure compliance of the service with point 1 of this Annex and with the applicable requirements of these regulations.

ANNEX VI**CRITERIA FOR ASSESSMENT OF DISPROPORTIONATE BURDEN**

Criteria to carry out and document the assessment:

1. Ratio of the net costs of compliance with accessibility requirements to the overall costs (operating and capital expenditures) of manufacturing, distributing or importing the product or providing the service for the economic operators.

Elements to use to assess the net costs of compliance with accessibility requirements:

- (a) criteria related to one-off organisational costs to take into account in the assessment:

-
- (i) costs related to additional human resources with accessibility expertise;
 - (ii) costs related to training human resources and acquiring competences on accessibility;
 - (iii) costs of development of a new process for including accessibility in the product development or service provision;
 - (iv) costs related to development of guidance material on accessibility;
 - (v) one-off costs of understanding the legislation on accessibility;
 - (b) criteria related to on-going production and development costs to take into account in the assessment:
 - (i) costs related to the design of the accessibility features of the product or service;
 - (ii) costs incurred in the manufacturing processes;
 - (iii) costs related to testing the product or service for accessibility;
 - (iv) costs related to establishing documentation.

2. The estimated costs and benefits for the economic operators, including production processes and investments, in relation to the estimated benefit for persons with disabilities, taking into account the amount and frequency of use of the specific product or service.

3. Ratio of the net costs of compliance with accessibility requirements to the net turnover of the economic operator.

Elements to use to assess the net costs of compliance with accessibility requirements:

- (a) criteria related to one-off organisational costs to take into account in the assessment:
 - (i) costs related to additional human resources with accessibility expertise;
 - (ii) costs related to training human resources and acquiring competences on accessibility;
 - (iii) costs of development of a new process for

including accessibility in the product development or service provision;

(iv) costs related to development of guidance material on accessibility;

(v) one off costs of understanding the legislation on accessibility;

(b) criteria related to on-going production and development costs to take into account in the assessment:

(i) costs related to the design of the accessibility features of the product or service;

(ii) costs incurred in the manufacturing processes;

(iii) costs related to testing the product or service for accessibility;

(iv) costs related to establishing documentation.

ACCESSIBILITY MEASURES REGULATIONS

Index of S.L. 627.03

- Part I – General Provisions.
- Part II – Accessibility Requirements and Free Movement.
- Part III – Obligations of Economic Operators Dealing with Products.
- Part IV – Obligations of Service Providers.
- Part V – Fundamental Alteration of Products or Services and Disproportionate Burden to Economic Operators.
- Part VI – Harmonised Standards and Technical Specifications of Products & Services.
- Part VII – Conformity of Products and CE Marking.
- Part VIII – Market Surveillance of Products and Union Safeguard Procedure.
- Part IX – Compliance of Services.
- Part X – Accessibility Requirements in Other Union Acts.
- Part XI – Enforcement and Penalties.

- Annex I till Annex VI

ACCESSIBILITY REQUIREMENTS FOR PRODUCTS AND SERVICES

Annex I of S.L. 627.03

- Section 1: General Accessibility Requirements related to all Products Covered by these Regulations in accordance with Regulation 3(1).
- Section II: Accessibility Requirements related to Products in Regulation 3(1), except for the Self-Service Terminals referred to in Regulation 3(1)(b).
- Section III: General Accessibility Requirements related to all Services covered by these Regulations in accordance with Regulation 3(2).
- Section IV: Additional Accessibility Requirements related to Specific Services.
- Section V: Specific Accessibility Requirements related to the answering of Emergency Communications to the single European Emergency Number "112" by the most appropriate PSAP.
- Section VI: Accessibility Requirements for Features, Elements or Functions of Products and Services in accordance with Regulation 24(2).
- Section VII: Functional Performance Criteria.

INDICATIVE NON-BINDING EXAMPLES OF POSSIBLE SOLUTIONS
THAT CONTRIBUTE TO MEETING THE ACCESSIBILITY
REQUIREMENTS IN ANNEX I

Annex II of S.L. 627.03

- Section I: Examples related to General Accessibility Requirements for all Products covered by these Regulations in accordance with Regulation 3(1).
- Section II: Examples related to Accessibility Requirements for Products in regulation 3(1), except for the Self-Service Terminals referred to in Regulation 3(1)(b).
- Section III: Examples related to General Accessibility Requirements for all Services covered by these Regulations in accordance with Regulation 3(2).
- Section IV: Examples related to Additional Accessibility Requirements for Specific Services.

ACCESSIBILITY MEASURES REGULATIONS

Additional Information

Directive (EU) 2019/882 on the ‘*Accessibility Requirements for Products and Services*’ (also referred to as the European Accessibility Act) was published on the Official Journal of the European Union on 7th June 2019 and entered into force on the twentieth day following its publication. Once transposed into local legislation, the Accessibility Measures became applicable from 28th June 2025¹. However, in line with Article 32(1) of Directive (EU) 2019/882, ‘*Member States shall provide for a transitional period ending on 28 June 2030 during which service providers may continue to provide their services using products which were lawfully used by them to provide similar services before that date*’².

On 29th July 2022, through the publication of Legal Notice 214 of 2022³ on the Government Gazette, Directive (EU) 2019/882 was locally transposed to the ‘*Accessibility Measures (European Accessibility Act) Regulations*’, Subsidiary Legislation 627.03.

Scope

The aim of Directive (EU) 2019/882 is to enhance the Functioning of the Internal Market in relation to the Accessibility Requirements for certain Products⁴ and Services⁵, through the alignment and standardisation of divergent accessibility requirements in the Member States. The European Accessibility Act complements existing European Union (EU) Sectorial Legislation on accessibility. For example, it explains and defines the accessibility requirements vis-à-vis Public Procurement and EU Structural Funds.

Implementation Timeframes

Pursuant to the aforementioned Transitional Period, Regulation 1(3) of S.L. 627.03 states that these regulations shall come into force on 28 June 2025.

¹ Article 31(3) of Directive (EU) 2019/882 states that ‘By way of derogation from paragraph 2 of this Article, Member States may decide to apply the measures regarding the obligations set out in Article 4(8) at the latest from 28 June 2027’.

² Article 32(1) of Directive (EU) 2019/882 states that ‘Service contracts agreed before 28 June 2025 may continue without alteration until they expire, but no longer than five years from that date’.

³ Article 31(1) of Directive 2019/882 states that ‘Member States shall adopt and publish, by 28 June 2022, the laws, regulations and administrative provisions necessary to comply with this Directive’.

⁴ Product is defined in S.L. 627.03 as ‘a substance, preparation, or good produced through a manufacturing process, other than food, feed, living plants and animals, products of human origin and products of plants and animals relating directly to their future reproduction’.

⁵ Service is defined in S.L. 627.03 as having the ‘same meaning assigned to it in Article 2 of the Services (Internal Market) Act’.

‘Provided, however, that the obligations set out in regulation 4(8) shall come into force on 28 June 2027:

Provided further that, without prejudice to regulation 2 of these regulations:

- (i) up until 28 June 2030, service providers may continue to provide their services using products which were lawfully used by them to provide similar services before that date;*
- (ii) (ii) service contracts agreed before 28 June 2025 may continue without alteration until they expire, but no longer than five (5) years from that date:*

Provided also that self-service terminals lawfully used by service providers for the provision of services before 28 June 2025 may continue to be used in the provision of similar services until the end of their economically useful life, but no longer than twenty (20) years after their entry into use.’

Applicability: Products and Services

Directive (EU) 2019/882 as well as S.L. 627.03 identify the below Products/Services, most of which relate to Digital Technologies, that shall be designed in such a manner to ascertain accessibility for Persons with Disabilities⁶:

- Computer Hardware Systems and their Operating Systems
- Payment Self-Service Terminals
- Self-Service Terminals: Automated Teller Machines (ATM), Ticketing Machines, Check-in Machines and Interactive Self-Service Terminals providing Information
- Consumer Terminal Equipment with Interactive Computing Capability⁷
- Electronic Communication Services
- Access to Audio-Visual Media Services (AVMS)
- Elements of Air, Bus, Rail, and Waterborne Passenger Transport Services: Websites, Mobile Device-Based Services, e-Tickets and Services, Delivery of Transport Service Information and Interactive Self-Service Terminals
- Consumer Banking Services
- e-Books, e-Readers and dedicated Software
- e-Commerce Services
- Answering Emergency Communications to the European Emergency Number 112

⁶ Persons with Disabilities is defined in S.L. 627.03 as ‘persons having a disability as defined in Article 2 of the United Nations Convention on the Rights of Persons with Disabilities Act’. Directive (EU) 2019/882 define Persons with Disabilities as ‘persons who have long-term physical, mental, intellectual or sensory impairments which in interaction with various barriers may hinder their full and effective participation in society on an equal basis with others’.

⁷ Consumer Terminal Equipment with Interactive Computing Capability used for electronic communications services and/or for accessing audiovisual media services.

Further to the above, it is important to note that Regulations 3(1), 3(2) and 3(3) of S.L. 627.03 provide detailed lists of the applicable Products and Services placed on the market or provided to Consumers after 28th June 2025⁸. In addition, Annex I of S.L. 627.03 lists the relevant Accessibility Requirements related to Products and Services in accordance with Regulations 3(1) and 3(2) as well as Specific Accessibility Requirements related to the answering of Emergency Communications to the single European emergency number "112" by the most appropriate PSAP. On the other hand, Annex II of S.L. 627.03 lists a set of indicative Non-Binding Examples of possible Solutions that contribute to meeting the said Accessibility Requirements in Annex I.

Regulation 3(4) lists specific Content of Websites and Mobile Applications for which S.L. 627.03 does not apply. Thus, they are exempt from compliance:

- Pre-Recorded Time-based Media published before 28th June 2025
- Office File Formats published before 28th June 2025
- Online Maps, if essential information is provided in an Accessible Digital Manner
- Third-party Content that is *not* funded, developed by, or under the control of the Economic Operator concerned
- Archives: Content of Websites and Mobile Applications that will not be Updated or Edited after 28th June 2025

Obligations of Economic Operators

The Commission for the Rights of Persons with Disability in conjunction with the Ministry responsible for the Economy⁹ shall prepare the necessary outreach initiatives to the Business Community. However, in the interim it is important that Economic Operators familiarise themselves with the requirements of the Accessibility Measures (European Accessibility Act) Regulations S.L. 627.03.

Regulation 4(1) of S.L. 627.03 specifies that *‘in accordance with sub-regulations (2), (3) and (5) of this regulation and subject to regulation 14, economic operators shall only place on the market products and only provide services that comply with the accessibility requirements set out in Annex I to these regulations’*.

⁸ Regulation 3(5) of S.L. 627.03 specifies that *‘These regulations shall be without prejudice to the Permitted Use of Certain Works and Other Subject Matter Protected by Copyright and Related Rights for the Benefit of Persons who are Blind, Visually Impaired or Otherwise Print-Disabled Order and Regulation (EU) 2017/1563’*.

⁹ Currently, the Ministry responsible for Economy is the Ministry for Economy, European Funds and Lands.

Accordingly, Economic Operators are encouraged to take the necessary action to comply with the Accessibility Requirements for Products and Services as set out in the Accessibility Measures (European Accessibility Act) Regulations. Thus, ascertaining that as of 28th June 2025, Products and Services covered by S.L. 627.03 are accessible to Persons with Disabilities.

Regulation 7(2) of S.L. 627.03 specifies that when placing their products on the market, *‘manufacturers shall (a) draw up the technical documentation in accordance with Annex IV to these regulations and carry out the conformity assessment procedure set out in that Annex or have it carried out; (b) where compliance of a product with the applicable accessibility requirements has been demonstrated by that procedure, draw up an EU declaration of conformity and affix the CE marking¹⁰’*.

To this end, in line with Regulation 16(1), the EU Declaration of Conformity¹¹ of Products shall state that *‘the fulfilment of the applicable accessibility requirements has been demonstrated. Where as an exception, regulation 14 has been used, the EU declaration of conformity shall state which accessibility requirements are subject to that exception’*.

It is important to highlight that the Accessibility Measures Regulations define an Economic Operator as *‘the manufacturer¹², the authorised representative¹³, the importer¹⁴, the distributor¹⁵ or the service provider¹⁶’*. Hence, Manufacturers, Authorised Representatives, Importers, Distributors and Service Providers shall conform to the applicable regulation/s of S.L. 627.03.

Further to the above, the Public Procurement Regulations S.L. 601.03¹⁷ define an Economic Operator as *‘any natural or legal person or public entity or group of such persons and, or*

¹⁰ ‘CE marking’ is defined in S.L. 627.03 as having ‘the same meaning assigned to it in point 20 of article 2 of Regulation (EC) No 765/2008 of the European Parliament and of the Council of 9 July 2008 setting out the requirements for accreditation and repealing Regulation (EEC) No 339/93’.

¹¹ ‘EU declaration of conformity’ is defined in S.L. 627.03 as ‘a declaration of conformity as defined in article 5 of Decision No 768/2008/EC of the European Parliament and of the Council of 9 July 2008 on a common framework for the marketing of products, and repealing Council Decision 93/465/EEC’.

¹² Manufacturer is defined in S.L. 627.03 as ‘any natural or legal person who manufactures a product or has a product designed or manufactured, and markets that product under its name or trademark’. Regulation 11 of S.L. 627.03 notes that ‘An importer or distributor shall be considered a manufacturer for the purposes of these regulations and shall be subject to the obligations of the manufacturer under regulation 7, where it places a product on the market under its name or trademark or modifies a product already placed on the market in such a way that compliance with the requirements of these regulations may be affected’.

¹³ Authorised Representative is defined in S.L. 627.03 as ‘any natural or legal person established within the [European] Union who has received a written mandate from a manufacturer to act on its behalf in relation to specified tasks’.

¹⁴ Importer’ is defined in S.L. 627.03 as ‘any natural or legal person established within the [European] Union who places a product from a third country on the [European] Union market’.

¹⁵ Distributor is defined in S.L. 627.03 as ‘any natural or legal person in the supply chain, other than the manufacturer or the importer, who makes a product available on the market’.

¹⁶ Service Provider is defined in S.L. 627.03 as ‘any natural or legal person who provides a service on the [European] Union market or makes offers to provide such a service to consumers in the [European] Union’.

¹⁷ S.L. 601.08 define Economic Operators same as S.L. 601.03. S.L. 601.05 define Economic Operators as ‘any natural or legal person or public entity or group of such persons and, or entities, including any temporary association of undertakings and Procurement Service Provider as a ‘public or private body which offers ancillary purchasing activities on the market’. S.L. 601.09 define Economic Operators as ‘any natural or legal person, or public entity, or a group of such persons or entities, including temporary associations of undertakings, which offers the execution of works and, or a work, the supply of products or the provision of services on the market. S.L. 601.12 define Economic Operators as ‘any natural or legal person or

entities, including any temporary association of undertakings and shall cover equally the concepts of contractor, supplier and service provider'. Accordingly, all such organisation structures are to conform to the Accessibility Requirements for Products and Services when placing¹⁸ or making¹⁹ a product available on the market as well as when designing and providing services.

However, Regulation 4(5) of S.L. 627.03 notes that *'Microenterprises²⁰ providing services shall be exempt from complying with the accessibility requirements referred to in subregulation (3)²¹ and any obligations relating to the compliance with those requirements²²'*.

Additional information may be reviewed from the following parts (and any corresponding Annex/es) of S.L. 627.03:

- Part II: Accessibility Requirements and Free Movement
- Part III: Obligations of Economic Operators dealing with Products²³
- Part IV: Obligations of Service Providers
- Part VII: Conformity of Products and CE Marking

Fundamental Alteration of Products and Services

In line with Regulation 14 of S.L. 627.03, the Accessibility Requirements as portrayed in Regulation 4 *'shall apply only to the extent that compliance: (a) does not require a significant change in a product or service that results in the fundamental alteration of its basic nature; and (b) does not result in the imposition of a disproportionate burden on the economic operators concerned.'*

Economic Operators shall carry out an assessment of whether compliance with the Accessibility Requirements would introduce a Fundamental Alteration or, based on the criteria set out in Annex VI of S.L. 627.03, impose a Disproportionate Burden. The relevant documentation shall be retained in file for auditing purposes as well as for presentation to the

public entity or group of such persons and, or entities, including any temporary association of undertakings who submitted a bid under, and regulated by, these regulations'.

¹⁸ Placing on the Market' is defined in S.L. 627.03 as 'the first making available of a product on the [European] Union market'.

¹⁹ Making available on the Market is defined in S.L. 627.03 as 'any supply of a product for distribution, consumption or use on the [European] Union market in the course of a commercial activity, whether in return for payment or free of charge'.

²⁰ Microenterprise is defined in S.L. 627.03 as 'an enterprise which employs fewer than ten (10) persons and which has an annual turnover not exceeding EUR 2 million or an annual balance sheet total not exceeding EUR 2 million'.

²¹ Regulation 4(3) of S.L. 627.03 states that 'Without prejudice to sub-regulation (5), all services: (a) except for urban and suburban transport services and regional transport services, shall comply with the accessibility requirements set out in Section III of Annex I to these regulations; (b) shall comply with the accessibility requirements set out in Section IV of Annex I to these regulations'. Regulation 4(6) of S.L. 627.03 notes that 'Guidelines and tools to microenterprises to facilitate the application of these Regulations shall be developed by the market surveillance authority, in consultation with relevant stakeholders'.

²² The Accessibility Measures (European Accessibility Act) Regulations place an obligation on CRPD to develop Guidelines and Tools for Microenterprises, thus, facilitating the application of S.L. 627.03, in consultation with relevant stakeholders.

²³ Part III of S.L. 627.03 includes obligations of Manufacturers, Authorised Representatives, Importers and Distributors.

Market Surveillance Authority²⁴ or to the Competent National Authorities²⁵, as and when requested.

Additional information may be reviewed from Part V of S.L. 627.03: ‘Fundamental Alternation of Products or Services and Disproportionate Burden to Economic Operators’ and its corresponding Annex VI: ‘Criteria for Assessment of Disproportionate Burden’.

Reporting on the Accessibility Measures Regulations

Article 33(1) of the Directive (EU) 2019/882 states that *‘By 28 June 2030, and every five years thereafter, the Commission shall submit to the European Parliament, to the Council, to the European Economic and Social Committee and to the Committee of the Regions a report on the application of this Directive’*.

The Review Report will also assess the application of Directive (EU) 2019/882 as part of Public Procurement. In fact, Article 33(2) of the Directive (EU) 2019/882 states that *‘The reports shall also assess if the application of this Directive, in particular its voluntary provisions, has contributed to approximate accessibility requirements of the built environment constituting works falling within the scope of Directive 2014/23/EU ... Directive 2014/24/EU and Directive 2014/25/EU’*. In addition, the report shall analyse whether it would be appropriate to include new Products and Services, or to exclude certain Products or Services from the scope of Directive (EU) 2019/882.

Article 33(2) of the Directive (EU) 2019/882 continues to specify that *‘Member States shall communicate to the Commission in due time all the information necessary for the Commission to draw up such reports’*.

To this end, Contracting Authorities/Entities are encouraged to keep a record of any information that the Market Surveillance Authority (Commission for the Rights of Persons with Disability: CRPD) or the Competent National Authority in the field of disability (Ministry for Inclusion and the Voluntary Sector: MIV), shall be requesting to fulfil the requirements of this Directive Article.

²⁴ Market Surveillance Authority is defined in S.L. 627.03 as the ‘Commission for the Rights of Persons with Disability, in its role as market surveillance authority in respect of the Directive, as designated by article 22(1)(v) of the Equal Opportunities (Persons with Disability) Act’. CRPD was designated as the Market Surveillance Authority for Products, Services and the Built Environment.

Part VIII of S.L. 627.03 relates to Market Surveillance of Products and Union Safeguard Procedures.

Part IX of S.L. 627.03 relates to Compliance of Services.

²⁵ Competent National Authority is defined in S.L. 627.03 as ‘a market surveillance authority that is not the market surveillance authority as defined in this regulation, unless the context indicates otherwise’.

MINISTRY FOR INCLUSION AND THE VOLUNTARY SECTOR**Accessibility Measures (European Accessibility Act) Regulations, 2022****Explanatory Notes¹****1. Introduction**

In 2019, the European Parliament and the Council adopted Directive (EU) 2019/882 of the European Parliament and of the Council of 17 April 2019 on the accessibility requirements for products and services (hereinafter referred to throughout as the "Directive"), more commonly known as the European Accessibility Act. Malta had supported this Directive throughout the negotiations, having also made it a key pillar of the programme of its 2017 EU Presidency.

2. Summary and background

This Directive is being transposed into Maltese law, by virtue of horizontal subsidiary legislation, mirroring the horizontal nature of the Directive.

Transposition is being effected in exercise of the powers conferred by article 8 of the United Nations Convention on the Rights of Persons with Disabilities Act (Cap. 627), of the Minister responsible for disability and the development of this sector. This is being done further to the requirement to enact appropriate measures contained in Article 9 of the Second Schedule thereof.

The subsidiary legislation in question was prepared following consultation with the relevant line Ministries and entities responsible for different sectors covered by the Directive.

Outreach to the business community commenced prior to the implementation deadline, by the Directorate for Disability Issues (DDI) within the Ministry for Inclusion and the Voluntary Sector (MIV), and the Commission for the Rights of Persons with Disability (hereinafter referred to throughout as CRPD).

CRPD was designated the market surveillance authority in terms of the Directive, for products, services and the built environment in relation to the latter, further to article 22(1)(v) of the Equal Opportunities (Persons with Disability) Act (Cap. 413).

This role will be fulfilled further by a Memorandum of Understanding concluded with the Malta Competition and Consumer Affairs Authority (MCCAA), in respect of technical aspects of the Directive such as CE marking and product withdrawal, and with other sector-specific entities in respect of necessary expertise concerning accessibility within those sectors, such as the Malta Communications Authority (MCA).

3. Structure of the instrument and relevant commentary.

Part I covers implementation deadlines for the regulations, as well as relevant definitions, and its applicability.

¹This Explanatory Note is in accordance with and for the purpose of article 3(2)(c) of the Small Business Act (Chapter 512 of the Laws of Malta).

Regulation 1 specifies that the regulations transpose the Directive (into Maltese law, while laying out deadlines for implementation of different provisions within the regulations. While the regulations, in line with the Directive, come into force on 28 June 2025, later deadlines are put in place for certain specific products or services, such as self-service terminals. The maximum extensions in respect of each such product or service were applied when transposing this Directive into Maltese law.

More specifically:

- The 112 emergency services number must comply with the regulations' requirements by 28 June 2027;
- Service providers that were lawfully using non-compliant products covered by the regulations, prior to their entry into force, to provide services covered by the regulations, have until 28 June 2030 to ensure they start using products compliant with the regulations;
- Service contracts that are not compliant with the regulations, but were agreed prior to 28 June 2025, may continue in force without alteration, up until 28 June 2030;
- Service providers that were lawfully using non-compliant self-service terminals, to provide services covered by the regulations, before 28 June 2025, may continue to use such self-service terminals to provide such services, until the end of the economically useful life of said terminals, or until 28 June 2045, whichever date would be earliest.

Regulation 2 lists relevant definitions used throughout the regulations, aligned with relevant national legislation transposing other Union acts mentioned in the Directive.

Regulation 3 specifies the products and services covered by the regulations, following their entry into force, as well as specific exclusions in respect of products and services:

Products

(a) consumer general purpose computer hardware systems and operating systems for those hardware systems;

(b) the following self-service terminals:

(i) payment terminals;

(ii) the following self-service terminals dedicated to the provision of services covered by these regulations:

(-) automated teller machines;

(-) ticketing machines;

(-) check-in machines;

(-) interactive self-service terminals providing information, excluding terminals installed as integrated parts of vehicles, aircrafts, ships or rolling stock;

(c) consumer terminal equipment with interactive computing capability, used for electronic communications services (within the meaning of the European Electronic Communications Code);

(d) consumer terminal equipment with interactive computing capability, used for accessing audiovisual media services (within the meaning of the Audio-Visual Media Services Directive); and

(e) e-readers.

Services

electronic communications services (within the meaning of the European Electronic Communications Code) with the exception of transmission services used for the provision of machine-to-machine services;

(b) services providing access to audiovisual media services (within the meaning of the Audio-Visual Media Services Directive);

(c) the following elements of air, bus, rail and waterborne passenger transport services, except for urban, suburban and regional transport services (which in the Maltese context means applicability only to air and domestic inter-island/ international ferry services) for which only the elements under sub-paragraph (v) apply:

(i) websites;

(ii) mobile device-based services including mobile applications;

(iii) electronic tickets and electronic ticketing services;

(iv) delivery of transport service information, including real-time travel information; this shall, with regard to information screens, be limited to interactive screens located within the territory of the Union; and

(v) interactive self-service terminals located within the territory of the Union, except those installed as integrated parts of vehicles, aircrafts, ships and rolling stock used in the provision of any part of such passenger transport services;

(d) consumer banking services;

(e) e-books and dedicated software; and

(f) e-commerce services.

Emergency Services

The answering of emergency communications to the single European emergency number '112', using a combination of text, voice and video.

Exceptions

1. The regulations do not apply to the following content of websites and mobile applications:

(a) pre-recorded time-based media published before 28 June 2025;

(b) office file formats published before 28 June 2025;

(c) online maps and mapping services, if essential information is provided in an accessible digital manner for maps intended for navigational use;

(d) third-party content that is neither funded, developed by, or under the control of, the economic operator concerned;

(e) content of websites and mobile applications qualifying as archives, meaning that they only contain content that is not updated or edited after 28 June 2025.

2. The regulations shall be without prejudice to provisions of EU legislation implementing the Marrakesh Treaty, and namely Regulation (EU) 2017/1563, and the Permitted Use of Certain Works and Other Subject Matter Protected by Copyright and Related Rights for the Benefit of Persons who are Blind, Visually Impaired or Otherwise Print-Disabled Order (S.L. 460.36) within the Maltese context.

Part II covers accessibility requirements for products, services and related to the built environment within the Scope of the regulations, as well as free movement considerations.

Regulation 4 lays down the accessibility requirements with respect to products and services mentioned in Part III, as well as of the built environment linked to the delivery of such services, with reference to detailed specifications and non-exhaustive indicative examples contained in the Annexes to the regulations.

The regulations provide an exemption from relevant accessibility requirements to Microenterprises providing services. Concurrently, the regulations place an obligation on CRPD, as the national market surveillance authority, to develop guidelines and tools for microenterprises, to facilitate the application of these regulations, in consultation with relevant stakeholders.

The relationship with other Union acts covering passenger transport services, is tackled by **regulation 5**, whereby services complying with the requirements on the provision of accessible information and of information on accessibility laid down in existing Union law on passenger rights, shall be deemed compliant with the regulations, saving where the regulations mandate additional requirements.

Additionally, free movement of products and services within the Union market is not to be impeded for reasons related to accessibility requirements, in terms of **regulation 6**.

Part III covers the obligations of economic operators dealing with products.

Regulation 7 deals with the obligations of manufacturers placing products on the Union market. These are the responsibility of economic operators to ensure compliance of products with the regulations' accessibility requirements, and ensuring relevant processes therefor, and the obligation to draw up and keep relevant technical documentation in respect of the prescribed self-assessment procedure, including the preparation of an EU Declaration of Conformity, the affixing of a CE mark, and respecting other prescribed labelling requirements, such as in the case of batch and serial numbers.

The obligations on economic operators are to provide this information to CRPD upon request, and to take the necessary corrective measures in case of non-compliance, as well as to keep a register documenting non-compliance of products, are also covered. Additionally, this regulation deals with the responsibility of an economic operator to provide information to another competent national authority within the EU, following a reasoned request from such, and to take relevant measures in this respect to end non-compliance.

Regulation 8 covers authorised representatives, that are appointed following a written mandate by a manufacturer in terms of these regulations, with such mandate not able to include a responsibility on the authorised representative to draw up technical documentation, such as an EU Declaration of Conformity.

However, such mandates must include, at the least, keeping technical documentation received from the manufacturer at the disposal of CRPD and of other competent national authorities for a period of five years, providing relevant information and documentation to competent national authorities further to reasoned requests, and cooperation with competent national authorities in cases of non-compliance.

Regulation 9 covers importers, and their obligation to carry out the conformity assessment procedure outlined in Annex IV to the regulations, before importing a relevant product. There is also a responsibility on importers to ensure that a manufacturer has fulfilled the relevant obligations under the regulations, in respect of relevant elements related to CE marking, technical documentation, and labelling of products.

Importers are not authorised to place a product onto the market until it has been brought in conformity with the regulations' accessibility requirements. Importers also have the responsibility to ensure that storage or transport conditions of products will not jeopardise the accessibility requirements of such products.

The obligation to keep and make available relevant documentation to CRPD, and to other competent national authorities, such as a product's EU Declaration of Conformity, and other technical documentation, is also covered by this regulation, as is the obligation for the importer to take necessary corrective measures, or else effect withdrawal, in case of the product's non-compliance with the regulations' accessibility requirements. The responsibility to cooperate with competent national authorities to demonstrate compliance, or in taking necessary measures to address non-compliance, is also covered.

Regulation 10 addresses distributors, and their obligation to undertake verification procedures with respect of labelling & relevant documentation for products. Additionally, this regulation specifies that a distributor shall not place a product on the market unless such product is compliant with the accessibility requirements in the regulations, or else the distributor is obliged to take necessary measures in case of non-compliance of products.

Distributors also have the responsibility to ensure that storage or transport conditions of products do not jeopardise the accessibility requirements of such products, and the obligation to cooperate as necessary with competent national authorities.

Regulation 11 additionally deals with circumstances in which obligations of manufacturers under the regulations also apply to importers and distributors, namely where an importer or distributor places a product on the market under their name or trademark, or modifies a product already placed on the market in such a way that compliance with the requirements of these regulations may be affected.

Obligations of all economic operators to identify other economic operators who had supplied them with, or to whom they had supplied products, are addressed in **regulation 12**, with this regulation specifying that such economic operators should be able to present this information for a period of five years after they have been supplied with the product, and for a period of five years after they have supplied the product.

Part IV covers the obligations of service providers in terms of the regulations, including relevant procedures to be followed by said service providers, in order to ensure compliance with the provisions of the regulations, further to **regulation 13**.

These include a reference to the necessary information to be provided by service providers, in terms of Annex V to the regulations, in both written and oral formats, as well as an obligation that such information is to be retained for as long as a service is in operation.

Change management procedures, such as in the case of alteration to services, as well as necessary corrective measures to be taken by a service provider in case of non-compliance, are also covered by this regulation.

Furthermore, the obligation of service providers to cooperate with CRPD, and with competent national authorities, is also mandated, in respect of information to demonstrate compliance with the accessibility requirements of the regulations, or necessary action to be undertaken by service providers to end instances of non-compliance.

Part V deals with the issues of fundamental alteration of products or services, and the possibility of a disproportionate burden affecting economic operators.

Regulation 14 specifies limits to the earlier-described accessibility requirements, when an economic operator is faced with the possibility of having to effect fundamental alterations to products or services to comply with the regulations, or when such compliance could lead to disproportionate burden.

Relevant self-assessment procedures for economic operators are outlined, and reference to Annex VI of the regulations is made in this respect, also covering relevant documentation of assessment procedures by economic operators, retention of relevant documentation, and possible requests for documentation by CRPD as market surveillance authority, or by other national competent authorities.

An exemption is provided for microenterprises dealing with products, in respect of the requirement to document their assessment. However, if CRPD as market surveillance authority, or another competent national authority so requests, microenterprises availing themselves of such exemption shall still provide the requesting authority with any relevant facts.

The effects of additional support received by economic operators to be able to apply the provisions of these regulations are also covered.

Assessments would have to be repeated by economic operators every five years, or whenever a service is altered, or when otherwise requested to do so by CRPD, or by another competent national authority responsible for checking compliance of services.

Part VI deals with Harmonised Standards and Technical Specifications of Products and Services at EU level, specifying in **regulation 15** that products and services which are compliant with said existing standards, would be considered as compliant in terms of the regulations, in so far as said Standards or Technical Specifications cover the regulations' requirements or parts thereof.

Part VII tackles the EU Declaration of Conformity for Products covered by the regulations, as well as the topic of CE Marking.

Regulation 16 specifies that compliant products shall have, in their respect, an EU Declaration of Conformity drawn up, further to the provisions of Decision No 768/2008/EC.

CE Marking of products in terms of the regulations is to follow the provisions of Regulation (EC) No 765/2008, with **regulation 17** covering general principles in this respect, and **regulation 18** tackling rules and conditions for affixing CE marking on compliant products, in which respect the Market Surveillance and CE Marking Regulations (S.L. 427.73) shall apply.

Part VIII deals with the market surveillance of products covered by the regulations, and the Union safeguard procedure linked to such.

The requirements in respect of market surveillance, to be observed by CRPD as the designated market surveillance authority for products, are covered by **regulation 19**.

This regulation states that Article 15(3), Articles 16 to 19, Article 21, Articles 23 to 28 and Article 29(2) and (3) of Regulation (EC) No 765/2008 shall apply to products. Furthermore, it mandates that CRPD is to check and review assessments performed by economic operators in terms of these regulations, as well as the results of such assessment procedures, while checking relevant compliance with the accessibility requirements contained in these regulations.

In this respect, reference is also made to Annex VI of the regulations in terms of issues of fundamental alterations and disproportionate burden.

Information that can be requested in respect of such market surveillance by CRPD, as the national market surveillance authority is also covered by said regulation, while the regulation also specifies that information held by CRPD in this respect shall be made available to consumers upon request, in an accessible format, except where that information cannot be provided for reasons of confidentiality as provided for in Article 19(5) of Regulation (EC) No 765/2008.

Regulation 20 covers the procedure to be followed by the market surveillance authority, for dealing with products not complying with the applicable accessibility requirements of the regulations.

This procedure includes an appropriate evaluation by CRPD, prescription of relevant measures to be undertaken by the economic operator within a reasonable time to end such non-compliance. This procedure also includes that if a determination of non-compliance is made, and if the prescribed corrective action is not taken, the CRPD may order the withdrawal of the product from the market by the economic operator within an additional reasonable period.

When non-compliance is not restricted to the Maltese national territory, CRPD is also obliged to inform the European Commission (hereinafter referred to as the "Commission") and other Member States, as well as to take any additional provisional measures as appropriate, which shall be deemed justified, if no objections are raised by the Commission or by a Member State to these measures within three months.

Where non-compliance is raised by the Commission or by another Member State, CRPD is to enforce appropriate measures locally to ensure compliance with the accessibility requirements contained in the regulations.

Regulation 21 deals with Union safeguard procedures, in respect of when the Commission examines a measure, and finds said measure to be either justified or unjustified, when a measure is linked to corrective action taken by CRPD concerning a product placed on the Union market, or further steps to prohibit access to the Union market of such product, or withdrawal of said product from the Union market, when the economic operator would not have taken corrective action prescribed within a reasonable period.

This would have been done further to a concern raised with the Commission by a competent national authority, in respect of said measure taken by CRPD, in terms of the regulations, having been contrary to Union law.

Where such measure is found by the Commission to have been justified, CRPD is to take the measures necessary to ensure that a non-compliant product is withdrawn from the market, and shall inform the Commission accordingly, while where the national measure is considered unjustified, CRPD shall withdraw the measure.

Where a measure is deemed justified and non-compliance is due to the shortcomings in harmonised standards at EU level, then the Commission is obliged to address this by applying the procedure in Article 11 of Regulation (EU) 1025/2012. If the measure is deemed justified, and said non-compliance is due to shortcomings in technical specifications at EU level, the

Commission is obliged to adopt implementing acts without delay, to rectify matters, following the examination procedure in Article 27(2) of the main Directive.

Formal instances of non-compliance of products with the regulations, such as CE marking not having been affixed, or the EU Declaration of Conformity not having been drawn up, in addition to instances of non-compliance determined by CRPD in terms of regulation 20, are covered by **regulation 22**.

Part IX deals with the compliance of services with the applicable provisions of the regulations, directing in **regulation 23** that the market surveillance authority adopt appropriate procedures in this respect.

In this respect, the regulation mandates that CRPD is to check and review assessments performed by economic operators in terms of these regulations, as well as the results of such assessment procedures, while checking the relevant compliance with the accessibility requirements contained in these regulations. Reference is also made to Annex VI of the regulations in terms of issues of fundamental alterations and disproportionate burden.

Outreach to the public by the market surveillance authority is also addressed in this regulation, in respect of the public being informed of the existence, responsibilities, identity, work and decisions of CRPD as the competent national market surveillance authority with regard to compliance of services, with said information being made available in accessible formats upon request.

Part X deals with instances in which other legislation, also contains accessibility requirements, further to the accessibility requirements stipulated in the regulations.

Regulation 24 specifies that the accessibility requirements contained in the regulations shall constitute mandatory accessibility requirements in terms of the public procurement legislation listed in this regulation, being the:

- Public Procurement Regulations (S.L. 601.03);
- Public Procurement of Entities operating in the Water, Energy, Transport and Postal Services Sectors Regulations (S.L. 601.05);
- Emergency Procurement Regulations (S.L. 601.08); and
- Concession Contract Regulations (S.L. 601.09).

Regulation 25 states that conformity with EU harmonised standards and technical specifications shall create a presumption of compliance in so far as those standards and technical specifications or parts thereof meet the accessibility requirements of these regulations.

Part XI tackles enforcement to ensure compliance with the provisions of the regulations, as well as the application of relevant penalties in instances of non-compliance.

Regulation 26 specifies that relevant enforcement procedures shall be carried out in terms of article 32A of the Equal Opportunities (Persons with Disability) Act (Cap. 413).

Furthermore, it indicates the individuals and entities that have standing in respect of relevant redress procedures, in terms of article 3 of the United Nations Convention on the Rights of Persons with Disabilities Act (Cap. 627), and through any other means of redress available in terms of applicable legislation from time to time. Said individuals and entities are consumers,

as well as public bodies or private associations, and organisations or other legal entities which have a legitimate interest and are acting on behalf of said consumers.

Exemptions from this regulation are provided for procurement procedures, which are to be regulated by existing sectoral legislation instead.

Penalties further to non-compliance with the provisions of the regulations, as well as specific considerations in this respect, are addressed by **regulation 27**, which mandates that action in this respect be taken in terms of article 32C of the Equal Opportunities (Persons with Disability) Act (Cap. 413), which directs that the Minister responsible, by means of regulations made under said Act, enact provisions in respect of administrative fines issued in terms of the Act. This regulation also directs that penalties shall also be accompanied by effective remedial action in case of non-compliance of the economic operator, in terms of the Act.

Exemptions from this regulation are also provided for procurement procedures, which are to be regulated by existing sectoral legislation instead.

Annex I provides detailed accessibility requirements for products and services covered by the Scope of the regulations, further to the stipulations, exceptions and exemptions contained in said regulations.

Annex II contains a non-exhaustive list of indicative, non-binding examples of possible solutions that contribute to meeting the accessibility requirements detailed in Annex I of the regulations.

Annex III deals with specific accessibility requirements concerning the built environment used in respect of delivery of services falling within the Scope of the regulations.

Annex IV outlines the conformity assessment procedure for products covered by the Scope of the regulations, further to relevant stipulations contained in said regulations.

Annex V specifies the information to be included by service providers in assessing how a service meets the accessibility requirements referred to in regulation 4 of the regulations.

Annex VI contains criteria for assessment of disproportionate burden in terms of the regulations, further to relevant stipulations contained in said regulations.

4. Concluding Section

The regulations shall come into force on such dates as specified in regulation 1(3) of the regulations.

The Accessibility Measures (European Accessibility Act) Regulations, 2022 were promulgated through Legal Notice 214 of 2022 on 29th July 2022, as Subsidiary Legislation 627.03: (<https://legislation.mt/eli/sl/627.3/eng>).

27th June, 2025

MANDATORY ACCESSIBILITY REQUIREMENTS

Annex I: Section VI of S.L. 627.03

Regulation 24 of S.L. 627.03 states that: *‘(1) As regards the products and services referred to in regulation 3 of these regulations, the accessibility requirements set out in Annex I to these regulations shall constitute mandatory accessibility requirements within the meaning of the Public Procurement Regulations, the Public Procurement of Entities operating in the Water, Energy, Transport and Postal Services Sectors Regulations, the Emergency Procurement Regulations and the Concession Contract Regulations.*

(2) Any product or service, the features, elements or functions of which comply with the accessibility requirements set out in Annex I to these regulations in accordance with Section VI thereof shall be presumed to fulfil the relevant obligations set out in legislation other than these regulations, as regards accessibility, for those features, elements or functions, unless otherwise provided in those other acts’.

Further to the above, Annex I: Section VI of S.L. 627.03 relates to the Accessibility Requirements for Features, Elements or Functions of Products and Services in accordance with Regulation 24(2) of S.L. 627.03.

In respect of Products:

- (a) Accessibility of information concerning the functioning and accessibility features related to products should comply with the corresponding elements set out in Point 1 of Section I of Annex I [General Accessibility Requirements related to all Products Covered by these Regulations in accordance with Regulation 3(1)] namely information on the use of the product provided on the product itself and the instructions for use of a product, not provided in the product itself but made available through the use of the product or other means such as a website;
- (b) Accessibility of features, elements and functions of the user interface and the functionality design of products should comply with the corresponding accessibility requirements of such user interface or functionality design set out in Point 2 of Section I of Annex I [General Accessibility Requirements related to all Products Covered by these Regulations in accordance with Regulation 3(1)];
- (c) Accessibility of the packaging, including the information provided in it and instructions for the installation and maintenance, storage and disposal of the product not provided in the

product itself but made available through other means such as a website, except for self-service terminals, should comply with the corresponding accessibility requirements set out in Section II of Annex I.

In respect of Services:

The accessibility of the features, elements and functions of services should comply with the corresponding accessibility requirements for those features, elements and functions set out in the services-related Sections of the Annex.

The above Accessibility Requirements shall be without prejudice to any other Features, Elements or Functions regarding accessibility, for either Products or Services, that would be laid down through Domestic Legislation in future, from time to time.

In addition, in line with Recital 90 of Directive (EU) 2019/882, Contracting Authorities/Entities should not be prevented from establishing accessibility requirements that go beyond the Accessibility Requirements set out in Annex I to the Accessibility Measures Regulations S.L. 627.03.

EU HARMONISED STANDARDS AND TECHNICAL SPECIFICATIONS

Regulation 15 of S.L. 627.03

Article 24(1) of Directive (EU) 2019/882 [transposed as Regulation 24(1) of S.L. 623.07] states that ‘*As regards the products and services referred to in Article 2 of this Directive [transposed as Regulation 3 of S.L. 623.07], the accessibility requirements set out in Annex I [transposed as Annex I of S.L. 623.07] thereto shall constitute mandatory accessibility requirements within the meaning of Article 42(1) of Directive 2014/24/EU and of Article 60(1) of Directive 2014/25/EU*’. The Articles quoted in Directives 2014/24/EU and 2014/25/EU relate to Technical Specifications.

Regulation 25 of the Accessibility Measures Regulations S.L. 623.07, also specifies that: ‘*Conformity with harmonised standards and technical specifications or parts thereof which are adopted in accordance with regulation 15, shall create a presumption of compliance with regulation 24 in so far as those standards and technical specifications or parts thereof meet the accessibility requirements of these regulations*’.

Regulation 15 of S.L. 623.07 states that *‘(1) Products and services which are in conformity with harmonised standards or parts thereof the references of which have been published in the Official Journal of the European Union, shall be presumed to be in conformity with the accessibility requirements of these regulations in so far as those standards or parts thereof cover those requirements. (2) Products and services which are in conformity with the technical specifications or parts thereof shall be presumed to be in conformity with the accessibility requirements of these regulations in so far as those technical specifications or parts thereof cover those requirements’.*

Further to the above, the following definitions shall apply:

- Harmonised Standard is defined in S.L. 627.03 as having the *‘same meaning assigned to it in point 1(c) of article 2 of Regulation (EU) No 1025/2012 of the European Parliament and of the Council of 25 October 2012 on European standardisation, amending Council Directives 89/686/EEC and 93/15/EEC and Directives 94/9/EC, 94/25/EC, 95/16/EC, 97/23/EC, 98/34/EC, 2004/22/EC, 2007/23/EC, 2009/23/EC and 2009/105/EC of the European Parliament and of the Council and repealing Council Decision 87/95/EEC and Decision No 1673/2006/EC of the European Parliament and of the Council’.*
- Technical Specification is defined in S.L. 627.03 as having the *‘same meaning assigned to it in point 4 of article 2 of Regulation (EU) No 1025/2012 of the European Parliament and of the Council of 25 October 2012 on European standardisation, amending Council Directives 89/686/EEC and 93/15/EEC and Directives 94/9/EC, 94/25/EC, 95/16/EC, 97/23/EC, 98/34/EC, 2004/22/EC, 2007/23/EC, 2009/23/EC and 2009/105/EC of the European Parliament and of the Council and repealing Council Decision 87/95/EEC and Decision No 1673/2006/EC of the European Parliament and of the Council that provides a means to comply with the accessibility requirements applicable to a product or service’.*
- Technical Specification is defined in S.L. 601.03 is defined as *‘either: (a) in the case of public works contracts the totality of the technical prescriptions contained in particular in the procurement documents, defining the characteristics required of a material, product or supply, so that it fulfils the use for which it is intended by the contracting authority; those characteristics include levels of environmental and climate performance, design for all requirements (including accessibility for disabled persons) and conformity assessment, performance, safety or dimensions, including the procedures concerning quality assurance, terminology, symbols, testing and test methods, packaging, marking and labelling, user instructions and production*

processes and methods at any stage of the life cycle of the works; those characteristics also include rules relating to design and costing, the test, inspection and acceptance of conditions for works and methods or techniques of construction and all other technical conditions which the contracting authority is in a position to prescribe, under general or specific regulations, in relation to the finished works and to the materials or parts which they involve; or (b) in the case of public supply or service contracts a specification in a document defining the required characteristics of a product or a service, such as quality levels, environmental and climate performance levels, design for all requirements (including accessibility for disabled persons) and conformity assessment, performance, use of the product, safety or dimensions, including requirements relevant to the product as regards the name under which the product is sold, terminology, symbols, testing and test methods, packaging, marking and labelling, user instructions, production processes and methods at any stage of the life cycle of the supply or service and conformity assessment procedures'
